ACKNOWLEDGEMENT

I wish to express my sincere gratitude to Dr. P. Madhavan Nair, Scientist, National Chemical Laboratory, Pune, for suggesting this work and guidance during this investigation. Learning from him has been a great pleasure throughout my association with him.

I am also thankful to my colleagues, Mr. S.B. Bendre, Mr. V.K. Bhale, Mr. K.G. Deshpande, Dr. T.P. Mohandas, Dr. S.D. Patil, Mr. A.G. Samuel, Mr. P.M. Suryawanshi and Mr. V.T. Sathe for their kind co-operation.

The assistance from the National NMR Facility at T.I.F.R., Bombay in carrying out 2-D exchange studies, from Varian AG, Zug and Spectrospin AG, Zurich in recording $^{15}\text{N}$ spectra is gratefully acknowledged.

The author also wishes to acknowledge the help rendered by Mr. M.V. Jayadevan and Mr. M.N. Joglekar for typing this manuscript and drawing the figures, respectively.

My gratitude is also due to the Director, National Chemical Laboratory, Pune, for his kind permission to submit this work in the form of a thesis. The Council of Scientific and Industrial Research, New Delhi supported this study by awarding a research fellowship.

(P. R. RAJAMOHANAN)
