

## Acknowledgements

I would like to express my deep sense of gratitude to my research guide Dr. G. B. Mund and my co-guide Dr. Veena Goswami for their invaluable guidance, help, and encouragement throughout my work. Their constant guidance, cooperation and support has always kept me going ahead. I owe a lot of gratitude to them for always being there for me and I feel privileged to be associated with them during my life.

I am grateful to all the colleagues of School of Computer Applications and School of Computer Engineering of KIIT University for their many helpful comments and constant encouragement. I am thankful to Dr. J. R. Mohanty, Associate Dean, School of Computer Application, for his constant motivation, encouragement and support during the course of this work. I would also like to express my sincere thanks to Prof A. K. Bisoi, Dean, School of Computer Engineering and Dr. M. N. Das, Senior Professor, School of Computer Engineering for their constant support and encouragement during the process of completing this thesis. I wish to thank all the office staff of School of Computer Applications for their kind help and support throughout my work.

I would like to thank all the people whose names I did not include here, but they provided me with the necessary help and made it possible for me to write this thesis.

Lastly I would like to appreciate my family and parents for all their love and encouragement. I wish to appreciate my sons, Ankit and Arpit for allowing me to stay away from them for perusing my research work. Without the constant support and encouragement of my wife, Subarnamala, I could hardly have completed this work. Her unending patience, encouragement and understanding have made it all possible, and meaningful. My deep and lasting gratitude to my father and mother for their unconditional love, faith, and support. They have been a constant source of inspiration and this work is especially dedicated to them.
