

## ACKNOWLEDGEMENT

I express my heartiest gratitude to Dr. Sukla Paul, Reader, Dept. of Physics, University of North Bengal, for her constant help, ever available counsel and encouragement in guiding my work. I also express my gratefulness to Professor Ranjit Paul, Dept. of Physics, University of North Bengal, for his valuable suggestions and discussions.

I much indebted to Dr. P.Mandal and Dr. M.Mitra throughout the progress of my work. I am grateful to Dr.B.Majumder, Miss B.Adhikari, Mr.M.Das for their cordial cooperation during my experimental works. Ashis Bhattacharjee (I.A.C.S.) is also gratefully acknowledged.

I want to thank M/s. Hoffmann La-Roche Co., Basel, Switzerland and British Drug House (BDH), U.K. for donating liquid crystal samples used in my research works. I extend my gratefulness to Prof. H.Schenk, M.de Wit and K.Goubitz, Laboratory for Crystallography, University of Amsterdam, for their help in solving the crystal structure of the liquid crystalline compound.

I am grateful to the librarian and to Professor S.P.Sengupta, of Indian Association for the Cultivation of Science, Calcutta, for their cooperations in many respects.

Mr.S.Sarkar, senior technical assistant, Dept. of Physics, University of North Bengal, is gratefully acknowledged for his untiring help in designing and repairing the instruments I used. I give a lot of thanks to Mr.G.Basak and all other members of USIC for the fabrication of the high temperature set up.

I convey my thanks to University Grants Commission, New Delhi, for providing me with a fellowship. Council of Scientific and

Industrial research, New Delhi, is also acknowledged for the award of senior research fellowship.

Finally, I express my gratefulness to my parents, sisters, brother, sister in law and all of my friends whose constant inspirations helped me to complete my work.

Dated: 12. 12. '91.

University of North Bengal.
