

List of Tables

- Table 1.1** Present Status of Area, Production and Yield of Grapes in India with Reference to World and Other Leading Countries during the Year 2007-08
- Table 1.2** Export-import of Various Grape Products at Global Level vis-à-vis India during the Year 2006-07
- Table 1.3** Consumption Pattern
- Table 1.4** Year wise Overall Consumption of Wine
- Table 1.5** Pricewise Wine Consumption
- Table 1.6** Wine Consumption (by wine type)
- Table 1.7** Imports of Wine by India
- Table 1.8** Import Market Shares
- Table 1.9** Indian Importers
- Table 1.10** Volume Growth (*Source: Indian wine industry report, Centro Estero delle Camere di Commercio del Veneto, Representative Desk in India, 2005*)
- Table 1.11** Revenue Growth (*Source: Indian wine industry report, Centro Estero delle Camere di Commercio del Veneto, Representative Desk in India, 2005*)
- Table 1.12** The Major Players and Their Production Volumes
- Table 1.13** Volumes by 2010 (9L Cases)
- Table 1.14** Grapevine Growth Stages
- Table 1.15** The levels of Phenolics in Red and White Table Wine (Waterhouse, 2002)
- Table 1.16** Maximum Limits of Some Grape and Wine Contaminants Fixed by Regulations of Single Countries, European Union (EU), United Nations (UN)
- Table 1.17** Comparative Statement of Standards of Different Countries
- Table 1.18** European Wine Quality Standard
- Table 1.19a** OIV Standards for Quality of Wine
- Table 1.19b** OIV Standards for Quality of Wine
- Table 1.20a** BIS Standards for Quality of Wine
- Table 1.20b** BIS Standards for Quality of Wine

Table 2.1.1	Physico-chemical Properties of Collected Wine Samples
Table 2.2.1	Concentration of Analyte in Wine Samples
Table 2.2.2	Gas Chromatographic Parameters for Alcohols, Acetaldehyde and Ethyl Acetate
Table 2.3.1	Details of Wine Samples Collected with Organic Acid Content in g L ⁻¹ (all average n=3)
Table.3.1	Antioxidant Capacity and Total Phenolic Concentrations of Wines from Different Varieties of Grape Produced in Different Vintage Years from Region of India with Its Compositional Factors
Table3.2	Concentration (mg L ⁻¹) of Polyphenols in Wines (All Values Average of 5 Replicate)
Table 3.3	Pearson's Correlation Coefficient Obtained between Wine Individual Phenolic Compounds and Antioxidant Power with Total Polyphenol Content
Table 4.1	Aroma Descriptor Indicating Responsible Volatile Compounds
Table 4.2	Validation Study of Volatile Compounds with their Recovery and HorRat
Table 4.3	Screening of Real Wine Samples for Aromatic Compounds (All the values are in ng mL ⁻¹)
Table 5.1.1	Recovery at 5, 10, 25 ng mL ⁻¹ with Precision at 10 ng mL ⁻¹ in Red and White Wines
Table 5.1.2	Slope, r^2 , LOD, LOQ (ng/mL) and Slope Ratio of Solvent and Matrix-matched Calibration Standards
Table 5.1.3	Uncertainty Analysis for Individual Compounds at 10 ng mL ⁻¹ Level of Fortification (Expressed as Relative Measures)
Table 5.2.1	The GC-MS Conditions and Accuracy and Precision Results from the Analysis of Red Wine Samples
Table 5.3.1	Instrumental Parameters for Amino Acids and Biogenic Amines
Table 5.3.2	Recovery of Biogenic Amines and Amino Acids
Table 5.3.3	Contents of Amino Acids in Indian Wine
Table 5.3.4	Contents of Biogenic Amines in Indian Wine
Table 5.4.1	Comparative Data of MRLs (mg/L) for Wines Provided by Different Countries
Table 5.4.2	Summary of Heavy Metals (mg/L) in Wine Collected From Different Region
