ACKNOWLEDGEMENT

The entire work was carried out under the supervision of Dr. R. Krishnamurthy, Reader, Department of Zoology, Marathwada University, Aurangabad. Words are inadequate to express the sum total of the author’s gratitude to him for his most able guidance, keen interest, valuable suggestions and constant encouragement to accomplish an ambition.

The author is thankful to Professor R. Nagabhushanam, Head, Department of Zoology, for providing laboratory and library facilities.

Grateful acknowledgement is made of the help and training in cytochemistry received from Dr. M. Azghar Khan and his students at Osmania University.

The author is thankful to Dr. T.D. Soota and Dr. A.K. Mandal of the Zoological Survey of India, Calcutta, for the identification of the host earthworm.
The author acknowledges with gratitude the help received from Dr. Tayyaba Sultana, who was kind enough to place a part of her collections at the author's disposal for study and has extended advice and help whenever needed. Thanks are also due to Mr. Masood Ahmed for several helpful suggestions during the course of the work.

Thanks are due to the Council of Scientific and Industrial Research, New Delhi for the award of a junior research fellowship.

Acknowledgement is also made of the help and co-operation received from Mr. C.H. Narale and Mr. S.Y. Bopi in the preparation of the plates and Mrs. Mariamma Abraham in typing the thesis.

The author places on record her profound feelings of gratitude to the members of her family, who have been a constant source of strength and inspiration and to all her colleagues for their help and co-operation.
