ACKNOWLEDGMENT

Any scientific research and achievement entail relentless perseverance, untiring efforts, meticulous observations and inferences deduced thereafter and consummates in new findings in the form of an authenticated thesis. The present work on the table is far more easier for perusal than for the realisation of hard work rendered by the team of experts in their respective field who sweated day and night to design this research work worth presenting.

At the first turn of acknowledgement. I am deeply ingratiated to my most respected teacher and guide Dr. P. S. Kulkarni, Reader and Head, Deptt. Of Geology, Maulana Azad College, Aurangabad who dedicatedly left no stone unturned in architecturing the present enterprise. My sincerest thanks and unrepayable indebtedness shall always be due to him.

I heartily extend my thankfulness to Dr. Ahmed Zaheer, Principal, Maulana Azad College, Aurangabad and Dr. Mazhar Mohiuddin, Honorary General Secretary, Maulana Azad Education Society who have been generous enough to accord permission to carryout the research work in the laboratory of the Deptt. Of Geology of this college.

I nurture a deep sense of regard and gratitude to respected Shri. Madhukarraoji Mulay, Secretary, Marathwada Shikshan Prasarak Mandal, Aurangabad who helped me at every stages and Dr. R.T. Deshmukh, Principal, Deogiri College, Aurangabad under whose patronage, I could carryout research without least of hesitation.

I owe a sublime sense of reverence and respect to Dr. R.B. Gupte, veteran Geologist who will always be a rich source of inspiration to any entrepreneur engaged in research activities in Geology.

I do not think I could ever be able to repay, in any form, the enormous gratitude that Dr. B. M. Karmarkar has shown in shaping the contents of on-going research work in decent order. The services and dedication of Dr. B. M. Karmarkar will be long-remembered and lingered in the field of Geology as a whole.

Dr. S. S. Marathe, took great pains and troubles in computing the data of chemical analysis in deciphering the petrochemistry, of Basaltic flows and dykes. I have special words to acknowledge praise and thankfulness towards him.

I am carried away by emotions when the name of Prof. A. R. Khan crops up into my memory. He has been my teacher and helped me at every stage of this research work. My work of thanks will always fall short of the enthusiasm fostered by him in the progress of this thesis.
I am reminded of sincere co-operation extended by Dy. Director General GSI, Nagpur and Mr. A. K. Chatterjee, Senior Geologist of Petrography Division, GSI, Nagpur. In spite of their hectic schedule, they were kind enough to perform petrographic studies of flows and dykes. I have all words of thankfulness due to them.

I owe a deep sense of gratitude to my senior professors Dr. M.D. Jahagirdar, Dr. K. M. Mogarkar of Maulana Azad College, Shri. Vasantrao Savant, Dr. C. P. Gavhane, Vice-Principals of Deogiri College, Aurangabad Shri. U. V. Panchal, Dr. Dilip Ghare, whose elderly tips and guidance are worth highlighting.

None the less I am extremely grateful to Dr. R. B. Muley. Head, Deptt. of Geology, Dnyanopasak College, Parbhani who has been of great help to me in meticulously arranging the text of this thesis.

Last I may fail in my duty, my thanks are full of heart to Dr. D. G. Chande, Dr. P. P. Kundal, Shri. V. P. Palsodkar, Prof. U. V. Gaikwad. Prof. M.B. Dhonde, Shri. S. S. Kadam and Shri. P. D. Shinde. They have been contributors, in one form or the other, to the successfull presentation of on going research work.

I am very much obliged and thankful to Shri. M. A. Mann, Librarian, Maulana Azad College, Aurangabad and Shri. D. B. Jadhav, Librarian, Deogiri College, Aurangabad for their generous attitude in providing whatever references, I needed from time to time in my research findings.

Shri. Abdul Rafique, Laboratory Assistants, Shri. M. K. Kharadkar, Shri. Ganash Patil, Shri. Sushil Gaikwad also share my thankfulness with others for the present endeavour.

Mr. And Mrs. Bhave have been kind enough to take out computer prints of my manuscripts. They do fully deserve my heartfelt thanks.

Mr. Suryawanshi deserves thanks from me for drawing the figures in the thesis.

Generous blessings of my holy parents were, on and off, over me during the preparation of this thesis. I can never repay, in any manner or form their obligations on me. My family members had to face and share the difficulties all along during the formulation of thesis. I owe a special word of praise for them.

A. V. Tejankar
