CONTENTS

Summary 1-3

Chapter 1. Introduction 4-23

Chapter 2. Theoretical details 24-35

Chapter 3. Structural and electronic properties of AlX (X=N, P and As) 36-52

Chapter 4. Phase transition and energy band in SrO and SrS 53-65

Chapter 5. Structural, optical and electronic properties of BeS, BeSe and BeTe 66-86

Chapter 6. Structural and electronic properties of Mg₅Ca₁₋₅O 87-101

Chapter 7. Conclusions and future scope 102-103

List of Publications 104-105
