ACKNOWLEDGEMENTS

I am indebted to my supervisors, Dr. R.K. Paramguru, Scientist-G & Head, Hydro and Electrometallurgy (HEM) Department, Institute of Minerals and Materials Technology (IMMT), Bhubaneswar and Dr. K.G. Mishra, faculty, Chemistry Wing, School of Applied Sciences, KIIT, University, Bhubaneswar for introducing me into the research area on preparation of titanium metal through high temperature electrolysis and providing timely guidance and motivation throughout the entire period of the study. I am extremely obliged to Prof. B. K. Mishra, Director, IMMT, Bhubaneswar, for providing me a research position through support from the Council of Scientific and Industrial Research and, during the later part, in a project of DRDO, Government of India and permitting me to register for Ph.D. Degree.

Dr. P. C. Rath, (retd.) Scientist, IMMT, provided necessary support during thesis preparation. Dr. T. Subbaiah, Scientist G, HEM Dept., rendered necessary support during high temperature electrolysis. Dr. R.K. Galgali, (retd.) Scientist, IMMT, provided valuable suggestions. Dr. Pratima Mishra, Scientist, IMMT, encouraged me during the time of need.

During the investigation I learned valuable tips on various characterization techniques such as XRD and SEM from Dr. B. S. Acharya, Scientist G, Central Characterization Cell and Dr. B. K. Mohapatra, Scientist G, Mineralogy Dept. Dr. K.M. Parida, Scientist G, Colloids and Materials Chemistry helped me in porosity measurement. Dr. K. C. Nathsharma, Dr. (Mrs.) S. Anand, Dr. I. N. Bhattacharya, Dr. K. Sanjay, Dr. M. K. Ghosh, scientists of HEM Department, provided me the research environment and encouragement.

The supporting staffs of HEM Department, Mr. A. K. Sahu, Mr. B. Jena, Mr. M. Samal, Mr. Dayanidhi, Mr. Mohan and Mr. Manas, extended helping hand during my experimental work. My friends Baladev, Rupambica and Barsha have given excellent company.

I am indebted to all of them.

(Jayashree Mohanty)
