LIST OF TABLES

Table 3.1: Product Characteristics for Company A .......................... 105
Table 3.2: Product Costing Data for Company A .......................... 107
  Panel A: Annual Input Consumption
  Patterns and Dollar Value by Product .................. 107
  Panel B: Overhead Costs Reported by a Volume-Based
  Cost System (VBCS) ...................................... 107
  Panel C: Overhead Costs Reported by an Activity-Based
  Costing System (ABCS) .................................. 108
  Panel D: The differences between VBCS and ABCS ........ 108
Table 3.3: Product Costing Data for Company B .......................... 109
  Panel A: Annual Input Consumption Patterns and
  Dollar Value by Product .................................. 109
  Panel B: Overhead Costs Reported by a Volume-Based
  Cost System (VBCS) ...................................... 109
  Panel C: Overhead Costs Reported by an Activity-Based
  Costing System (ABCS) .................................. 110
  Panel D: The differences between VBCS and ABCS ........ 110
Table 3.4: Product Costing Data for Company C .......................... 111
  Panel A: Annual Input Consumption Patterns and

XIX
Dollar Value by Product..........................111

Panel B: Overhead Costs Reported by a Volume-Based
Cost System (VBCS) ..................................112

Panel C: Overhead Costs Reported by an Activity-Based
Costing System (ABCS)..............................112

Panel D: The Differences between VBCS and ABCS......113

Table 3.5: Product Costing Data for Company D...............114

Panel A: Annual Input Consumption Patterns and
Dollar Value by Product..............................114

Panel B: Overhead Costs Reported by a Volume-Based
Cost System (VBCS) ..................................114

Panel C: Overhead Costs Reported by an Activity-Based
Costing System (ABCS)..............................115

Panel D: The Differences between VBCS and ABCS......115

Table 3.6: Product Costing Data for Company E...............116

Panel A: Annual Input Consumption Patterns and
Dollar Value by Product..............................116

Panel B: Overhead Costs Reported by a Volume-Based
Cost System (VBCS) ..................................116

Panel C: Overhead Costs Reported by an Activity-Based
Costing System (ABCS)..............................117

XX
Panel D: The Differences between VBCS and ABCS

Table 4.1: Manufacturing Establishment by Size

Table 5.1 Means of Main Question and check Questions

Table 5.2 Pearson’s Correlation between main and check questions

Table 5.3 the Reliability Coefficient (Alpha) of Elements of Questionnaire

Table 6.1: Sample and responses rate

Table 6.2: Qualification of the respondents

Table 6.3: Training courses

Table 6.4: Occupation or group of the study

Table 6.5: Respondents experience in accounting field

Table 6.6: Manufacturing firms

Table 6.7: Establishing date

Table 6.8: Number of employees

Table 6.9: Number of products

Table 6.10: Organization structure

Table 6.11: Bases of organization structure

Table 6.12: Organizational culture

Table 6.13 Manufacturing and production environment

Table 6.14: The important factors in the firms

Table 6.15: The important factors in the product pricing
Table 6.16: Change of product designs
Table 6.17: The adaptation with economic difficulties
Table 6.18: Globalization and information technology
Table 6.19: The Degree of competition and its effect on prices
Table 6.20 Description of smuggling impact
Table 6.21: The effect of new manufacturing techniques
and new business environment on the cost accounting in Yemeni firms
Table 6.22: Product design effect on cost of product
Table 6.23: Contribution of designers, engineers and operators
in cost accounting information
Table 6.24: Costing and financial accounting integrated
Table 6.25: Cost accounting department
Table 6.26: Cost accounting systems
Table 6.27: Costing techniques
Table 6.28: Costing methods (Costing theories)
Table 6.29: Computer System
Table 6.30: The type of software used
Table 6.31: Direction of overhead cost
Table 6.32: Proportion of cost elements to total cost
Table 6.33: Allocation overhead cost bases
Table 6.34: Importance of allocation overhead

XXII
Table 6.35: Importance of the budget function ..........................219
Table 6.36: Respondents opinions about current costing systems.....220
Table 6.37: Satisfaction with the TCA.....................................221
Table 6.38: Current costing systems and information provided......222
Table 6.39: ABC knowing....................................................225
Table 6.40: The knowledge/Educating Methods.......................225
Table 6.41: One-sample test for easiness adoption of ABC.........227
Table 6.42: Opinion of respondent groups ..............................227
Table 6.43: Supporting of respondents about ABC....................228
Table 6.44: Supporting adoption of ABC .................................228
Table 6.45: The attitudes and opinions of the groups about TCA ...230
Table 6.46: The differences between two group about TCA........231
Table 6.47: The attitudes and opinions of the groups about ABC ...232
Table 6.48: The differences between two group about ABC........233
Table 6.49: Level of attention of top management by
detailed production costs..................................................235
Table 6.50: The use of cost accounting information
by top management..........................................................236
Table 6.51: Impact of bahvioural factors on the adoption
and applying of ABC ......................................................238
Table 6.52: The differences between two groups about
the behavioral factors (Mean)...........................................239
XXIII
Table 6.53: The differences between two groups about the behavioral factors ($T$ test)..........................240
Table 6.54: Descriptive statistics for organizational factors...........242
Table 6.55: The differences between two groups about organizational factors ..............................................243
Table 6.56: Descriptive statistics about expected ABC benefits......245
Table 6.57: Mean differences between Supporter and non-supporters ABC regarding the benefits expected.....246
Table 6.58: Descriptive statistics about expected barriers in case adoption of ABC .....................................248
Table 6.59: Mean differences between supporter and non-supporters ABC regarding the barriers expected.....249

LIST OF EXHIBITS

Exhibit 3.1: The concept of ABC .................................................86
Exhibit 3.2: Manufacturing Cost Hierarchy.................................95
Exhibit 3.3: Traditional cost systems allocate overhead cost to production cost center..............................103
Exhibit 3.4: ABC traces resource expenses to activities and use ABC drivers for tracing activity costs to object.........104
