

LIST OF FIGURES

	Page No.	
2.1	Characteristics of Cloud Computing	14
2.2	Deployment Models of Cloud by Sosinsky	15
2.3	Tradeoffs between Three Services given by Rhoton	17
2.4	Hype Cycle given by Gartner	25
2.5	Hype Cycle of Emerging Technologies given by Gartner	25
2.6	Technology Adoption Curve given by Moore	26
3.1	Activity Diagram for Online Questionnaire	32
3.2	Representation of Respondents in Online Questionnaire (Universities vs. Colleges/Institutes)	33
3.3	Representation of Respondents in Online Questionnaire (Public vs. Private Institutions)	34
3.4	Representation of Respondents in Online Questionnaire (Public vs. Private Universities)	34
3.5	Representation of Respondents in Online Questionnaire (Public vs. Private Colleges)	35
4.1	Comparison of Representation in the Survey based on Respondents Role	39
4.2	Respondents Knowledge about Cloud Computing	40
4.3	Current State of use of different Cloud Computing Types	40
4.4	Cloud Computing is Future Model of IT in Technical Education	42
4.5	Organizations Willing to Adopt Cloud Computing	43
4.6	Categorical Respondents of Organizations Willing to Adopt Cloud Computing (Private vs. Public Universities)	44
4.7	Categorical Respondents of Organizations Willing to Adopt Cloud Computing (Private vs. Public Colleges)	44
4.8	Motivating Factors for Adoption of Cloud Computing	45
4.9	Disadvantages and Risks in the Use of Cloud Computing	48
4.10	Criteria for Selection of Cloud Service Providers	51
4.11	Current State of Overall use of SaaS in Organizations	54
4.12	Comparison of Current use of SaaS in Private vs. Public Colleges	54
4.13	Comparison of Current Use of SaaS in Private vs. Public Universities	55
4.14	Present State of Usage of SaaS in Different Domains of Organizations	55

	Page No.	
4.15	Share of Cloud Service Providers in SaaS	57
4.16	Factors in Favor of Adoptions of SaaS in Organization	59
4.17	Disadvantages and Risks in the Use of SaaS in Organization	61
4.18	Current State of Overall Use of PaaS in Organization	64
4.19	Comparison of Current use of PaaS in Private vs. Public Colleges	64
4.20	Comparison of Current use of PaaS in Private vs. Public Universities	65
4.21	Present State of Usage of PaaS in Different Domains of Organizations	65
4.22	Order of Preference of CSPs for PaaS	67
4.23	Support Provided by the PaaS Providers	69
4.24	Factors in Favor of Adoption of PaaS in Organization	70
4.26	Disadvantages and Risks in the Use of PaaS in Organizations	72
4.27	Present State of Overall Use of IaaS in Organizations	75
4.28	Comparison of Current use of IaaS in Public vs. Private Colleges	75
4.29	Comparison of Current use of IaaS in Public vs. Private Universities	76
4.30	Present State of use of IaaS in Different Domains of Organizations	76
4.31	Order of Preference of CSPs for IaaS	78
4.32	Support Provided by CSPs for IaaS	79
4.33	Factors in Favor of Adoption of IaaS in Organizations	80
4.34	Disadvantages and Risks in the Use of IaaS in Organizations	82
5.1	Comparison of usage of SaaS, PaaS, and IaaS	89
5.2	Use of SaaS, PaaS and IaaS in Different Domains of Organizations	90
5.3	Comparisons of Usage of SaaS, PaaS and IaaS in Different Domains of Organizations	93
5.4	Proposed Cloud Computing Deployment Model for Technical Educational Institutions	98
