

LIST OF TABLES

		Page No.
2.1	Comparison of Cloud and Own Infrastructure	22
3.1	Frequencies of Respondents from Different Type of Institutions Universities/Colleges	33
3.2	Chi-Square Test Statistics for Sample Independence Between Respondents from Universities/ Colleges	34
3.3	Frequencies of Respondents from Different Funding Type of Institutions (Public/Private)	36
3.4	Chi-Square Test Statistics for Sample Independence Between Public/Private Funded Institutions	36
4.1	Key Questions of Online Survey	38
4.2	Frequencies of Respondents Currently using Cloud Services	41
4.3	Chi-Square Test Statistics for Significant Difference in Use of Cloud Services	41
4.4	Comparisons of Means for Different Cloud Service Models	42
4.5	Kruskal-Wallis Test for Ranks of Factors Promoting the Use of Cloud Computing	46
4.6	Chi-Square Test Statistics for Ranks of Factors Promoting the use of Cloud Computing	47
4.7	One way ANOVA for POSTHOC SCHEFFE and LSD at Alpha (0.05)for Ranks of Factors Promoting the use of Cloud Computing	47
4.8	Homogeneous Subsets for Ranks of Factors Promoting the use of Cloud Computing	47
4.9	Kruskal-Wallis Test for Ranks of Factors Affecting the use of Cloud Computing	49
4.10	Chi-Square Test Statistics for Ranks of Factors Affecting the use of Cloud Computing	50
4.11	One way ANOVA for POSTHOC SCHEFFE and LSD at Alpha (0.05) for Ranks of Factors Affecting the use of Cloud Computing	50
4.12	Homogeneous Subsets for Ranks of Factors Affecting the use of Cloud Computing	50
4.13	Kruskal-Wallis Test for Ranks of Criteria for Selection of Cloud Service Providers	52

	Page No.
4.14 Chi-Square Test Statistics for Ranks of Criteria for Selection of Cloud Service Providers	53
4.15 One way ANOVA for POSTHOC SCHEFFE and LSD at Alpha (0.05) for Ranks of Criteria for Selection of Cloud Service Providers	53
4.16 Homogeneous Subsets for Ranks of Criteria for Selection of Cloud Service Providers	53
4.17 Kruskal Wallis Test for Domains of use of SaaS	56
4.18 Chi Square Test Statistics for Domains of use of SaaS	56
4.19 Median Test for Domains of use of SaaS	56
4.20 Chi- Square Test Statistics for Median Ranks of Domain for use of SaaS	56
4.21 Kruskal Wallis Test for the Mean Ranks of different CSPs	58
4.22 Chi square Test Statistics for the Mean Ranks for different CSPs	58
4.23 Median Test for the Ranks of different CSPs	58
4.24 Chi-Square Test Statistics for Median Ranks of different CSPs	58
4.25 Kruskal Wallis Test for Factors Promoting the use of SaaS	60
4.26 Chi-Square Test Statistics for Factors Promoting the use of SaaS	60
4.27 One Way ANOVA for POSTHOC SCHEFFE and LSD at ALPHA (0.05) for Factors Promoting the use of SaaS	60
4.28 Homogeneous Subsets for Factors Promoting the use of SaaS	61
4.29 Kruskal Wallis Test for Factors Affecting the use of SaaS	62
4.30 Chi-Square Test Statistics for Factors Affecting the use of SaaS	62
4.31 One Way ANOVA for POSTHOC SCHEFFE and LSD at ALPHA (0.05) for Factors Affecting the use of SaaS	63
4.32 Homogeneous Subsets for Factors Affecting the use of SaaS	63
4.33 Kruskal Wallis Test for Domains of use of PaaS	66
4.34 Chi-Square Test Statistics for Domains of use of PaaS	66
4.35 Median Test for Domains of use of PaaS	66
4.36 Chi-Square Test Statistics for Median Ranks for Domains of use of PaaS	66

	Page No.
4.37	Kruskal Wallis Test for the different CSPs for the use of PaaS 68
4.38	Chi-Square Test Statistics for the different CSPs for the use of PaaS 68
4.39	Median Test for the Different CSPs for the use of PaaS 68
4.40	Chi-Square Test Statistics for Median Ranks for the different CSPs for the use of PaaS 68
4.41	Friedman Test for Provision of Various Supports for PaaS 70
4.42	Chi-Square Test Statistics for Provision of Various Supports for PaaS 70
4.43	Kruskal Wallis Test for Factors Promoting the use of PaaS 71
4.44	Chi-Square Test Statistics for Factors Promoting the use of PaaS 71
4.45	One Way ANOVA for POSTHOC SCHEFFE and LSD at ALPHA (0.05) for Factors Promoting the use of PaaS 72
4.46	Homogeneous Subsets for Factors Promoting the use of PaaS 72
4.47	Kruskal Wallis Test for Factors Affecting the use of PaaS 73
4.48	Chi-Square Test Statistics for Factors Affecting the use of PaaS 74
4.49	One Way ANOVA for POSTHOC SCHEFFE and LSD at ALPHA (0.05) for Factors Affecting the use of PaaS 74
4.50	Homogeneous Subsets for Factors Affecting the use of PaaS 74
4.51	Kruskal Wallis Test for Domains for use of IaaS 77
4.52	Chi-Square Test Statistics for Domains for use of IaaS 77
4.53	Median Test for Domains for use of IaaS 77
4.54	Chi-Square Test Statistics for Median Ranks for Domains for use of IaaS 78
4.55	Friedman Test for Provision of Various Supports by CSPs for IaaS 79
4.56	Chi-Square Test Statistics for Provision of Various Supports by CSPs for IaaS 80
4.57	Kruskal Wallis Test for Factors Promoting the use of IaaS 81
4.58	Chi-Square Test Statistics for Factors Promoting the use of IaaS 81
4.59	One Way ANOVA for POSTHOC SCHEFFE and LSD at ALPHA (0.05) for Factors Promoting the use of IaaS 81

	Page No.
4.60 Homogeneous Subsets for Factors Promoting the use of IaaS	82
4.61 Kruskal Wallis Test for Factors Affecting the use of IaaS	83
4.62 Chi-Square Test Statistics for Factors Affecting the use of IaaS	83
4.63 One Way ANOVA for POSTHOC SCHEFFE and LSD at ALPHA (0.05) for Factors Affecting the use of IaaS	84
4.64 Homogeneous Subsets for Factors Affecting the use of IaaS	84
4.65 Overview of the Interviews Run with Academics	85
4.66 Structure of Interview Questions with the Corporate	86
4.67 Likelihood of a Total Adoption of Cloud Computing in Technical Educational Institutions	87
A.1 POSTHOC Test (SCHEFFE) for Multiple Comparisons for Ranks of Factors Promoting the use of Cloud Computing	108
A.2 POSTHOC Test (LSD) for Multiple Comparisons for Ranks of Factors Promoting the use of Cloud Computing	114
A.3 POSTHOC Test (SCHEFFE) for Multiple Comparisons for Ranks of Factors Affecting the use of Cloud Computing	120
A.4 POSTHOC Test (LSD) for Multiple Comparisons for Ranks of Factors Affecting the use of Cloud Computing	126
A.5 POSTHOC Test (SCHEFFE) for Multiple Comparisons for Ranks for Different Criteria for Selection of CSPs	132
A.6 POSTHOC Test (LSD) for Multiple Comparisons for Ranks for Different Criteria for Selection of CSPs	137
A.7 POSTHOC Test (SCHEFFE) for Multiple Comparisons for Factors Promoting Adoption of SaaS	142
A.8 POSTHOC Test (LSD) for Multiple Comparisons for Factors Promoting Adoption of SaaS	143
A.9 POSTHOC Test (SCHEFFE) for Multiple Comparisons for Factors Affecting Adoption of SaaS	144
A.10 POSTHOC Test (LSD) for Multiple Comparisons for Factors Affecting Adoption of SaaS	145
A.11 POSTHOC Test (SCHEFFE) for Multiple Comparisons for Factors Promoting Adoption of PaaS	146
A.12 POSTHOC Test (LSD) for Multiple Comparisons for Factors Promoting Adoption of PaaS	147

		Page No.
A.13	POSTHOC Test (SCHEFFE) for Multiple Comparisons for Factors Affecting Adoption of PaaS	148
A.14	POSTHOC Test (LSD) for Multiple Comparisons for Factors Affecting Adoption of PaaS	149
A.15	POSTHOC Test (SCHEFFE) for Multiple Comparisons for Factors Promoting Adoption of IaaS	150
A.16	POSTHOC Test (LSD) for Multiple Comparisons for Factors Promoting Adoption of IaaS	151
A.17	POSTHOC Test (SCHEFFE) for Multiple Comparisons for Factors Affecting Adoption of IaaS	152
A.18	POSTHOC Test (LSD) for Multiple Comparisons for Factors Affecting Adoption of IaaS	153
