ACKNOWLEDGEMENT

It gives me immense pleasure to express my deepest and heartfelt gratitude to my guide Dr. S. Manjappa, Associate Professor & HOD, Department of Chemistry, University B.D.T. College of Engineering, Davangere for his concern, invaluable advice, sincere evaluation and endless support without which this thesis could not have been completed. His involvement with his originality has triggered and nourished my intellectual maturity that I will benefit from, for a long time to come. Sir, I am grateful in every possible way.

It is a great honour to express my sincere and heartfelt gratitude to my co-guide Dr. J. Narayana, Professor & Chairman, Department of Environmental Science, Kuvempu University, Jnana Sahyadri, Shankaraghatta, Shimoga, for his constant encouragement and guidance during the period of my research work.

It is my privilege to thank Dr. S.V. Krishnamurthy, Professor, Dr. K. Yogendra and Dr. Hina Kausar Assistant Professors, Department of Environmental Science, Kuvempu University for their kind help and co-operation during the period of investigation.

I sincerely thank Dr. S.C. Sharma, Chief Mentor, BMSIT and BMSSA, and former Vice Chancellor, Tumkur University, Tumkur, for continuous encouragement and support.

I sincerely thank Dr. S. Venkateswaran, Principal, BMSIT and Dr. B.E. Ramachandran, HOD, Dept. of Chemistry BMSIT, for continuous encouragement and support.

I also wish to thank Dr. N. Dhananjaya, Department of Physics, B.M.S. Institute of Technology. Without his support this thesis would not come out well.

I am grateful to Prof. M. Chandrasekhar, Department of Physics, Acharya Institute of Technology, Bangalore, J. Malleshappa and D.V. Sunitha, Prof. C.N.R. Rao Centre for Advanced Materials, Tumkur University, Tumkur, for their support and encouragement.

I sincerely thank Ms. G.A. Swetha, Mrs. K.R. Ashwini, Ms. Yashaswini, Dr. Chethan, Mrs. Anitha Kiran and Venkatesh for their support and encouragement.

I have been very fortunate to be in the midst of friends, colleague of B.M.S. Institute of Technology, Bangalore, for their support and encouragement.
I am grateful to Dr. H. Nagabhushana, Prof. C.N.R. Rao Centre for Advanced Materials, Tumkur University, Tumkur-572 103, for laboratory facility, continuous encouragement and suggestions given during the course of this investigation.

I am grateful to Prof. B.M. Nagabhushana, Department of Chemistry, M.S. Ramaiah Institute of Technology, Bangalore-560 054, for extending laboratory facility, continuous encouragement, suggestions during the course of this investigation.

I am also grateful to Dr. C. Shivakumara, Solid state and Structural Chemistry Unit (SSCU), Indian Institute of Science, Bangalore-560 012, for PXRD, Reitveld analysis and valuable advice.

I am grateful for the support and continuous encouragement received from my parents E. Hanumanthappa and Parvathamma, wife Anitha and daughter Vrushti. I am also grateful to brother-in-law H.T. Sathish Chandra for the support and continuous encouragement. Finally, I wish to thank all my family members in all walks of life.

I thank all the teaching and non-teaching staff of Department of Chemistry, University BDT college of Engg, Davanagere and Department of Environmental Science, Kuvempu University, who have given moral support and timely help in many ways during my research work.

I also thank the staff of the Kuvempu University library for providing useful information for my research work.

Date: 23/12/2013

Place: Jnana Sahyadri
