Acknowledgements

It has been five years since I joined CDRJ as a research scholar. My stay at CDRJ has been filled with some of the most memorable moments of my life. As I finish my thesis and prepare to leave my Institute, I would like to acknowledge and thank all those who have been a great source of help and support during my stay at CDRJ.

First and foremost I would like to thank my guide and Dear mam, Dr (Mrs) Kunkum Srivastava. She initiated me into this field where most of the things were totally new for me. Her constant pursuance and zeal for teaching taught me whatever I know to this day. I would never forget her never say die attitude and determination for work. I have learnt a lot from her and would try to incorporate some of her qualities. Her vast and indepth knowledge of the subject along with her vision helped me in getting through several problems during my Ph. D. Her critical appraisal of my work and constant encouragement helped me in doing my work systematically and with precision.

I attribute sincere thanks to Dr S K Puri, Head of Department for overseeing my work and providing me with valuable suggestions at crucial moments during my research.

I would also like to thank Dr CM Gupta, former director and Dr. Rakesh Tuli, Director for providing me all the facilities to carry out our research.

I acknowledge the financial assistance from CDRJ and ICMR during the tenure of my thesis.

My dear friend now husband Vikas has been a constant source of encouragement and support for me. He had helped and supported me all throughout my Ph D and has helped me a lot in completing my thesis.

Nothing could have been accomplished without the huge moral support provided by my sisters Shweta di, Noopur di and brother Rahul. I would not have been able to complete
my work during my last year without the encouraging support of my in laws and brother in laws Vivek and Saurabh.

I am unable to express my feelings about my parents for their strong morals and blessings given by them were always a constant support for me. Their encouraging words gave me enough courage to accomplish all my work successfully.

I would like to thanks the almighty whose blessings never let me down both morally and physically during the hard days of my struggle.
