ACKNOWLEDGEMENT

I express my profound sense of gratitude to Dr. S.F.R. Khadri, Reader and Head, Department of Geology, Amravati University, for his kind help, interest and invaluable guidance throughout the research work leading to the completion of the thesis. I am highly indebted to him for his persistent efforts.

I take this opportunity to express my sincere thanks to Prof. V.G. Bhamburkar, Principal, Shri Shivaji Science College, Amravati and Prof. S.A. Salway, Head, Department of Geology, Shri Shivaji Science College, Amravati for the constant moral support shown by them and providing all possible assistance.

Thanks are also due to Dr. V.P. Singh, National Geophysical Research Institute, Hyderabad for providing facilities and assistance in analyzing pumping test data so also providing software for resistivity data interpretation.

Special thanks need to be given to Dr. D.S. Shrivastava, Head, Department of Hydrology, University of Roorkee, Roorkee, for allowing me to use the computer laboratory facility for aquifer modeling. Shri. J.S. Chavan, Officer Trainee at Roorkee from Indian Council of Agriculture and Research, New Delhi and Shri. P.P. Barde, Officer Trainee at Roorkee from Groundwater Survey and Development Agency, Thane, is highly acknowledged for their assistance given to me in developing the aquifer model and making prediction runs.

The microphotographic facility provided by Director (Petrology), Geological Survey Of India, and the assistance given by Shri A.K. Chatterjee are highly acknowledge.

I wish to express my deep sense of gratitude to Dr. S.K. Pande (Pandit. Ravishankar University Raipur), Dr. A.N. Deshmukh, and Dr. Pradeep Kundal, Nagpur University, Nagpur, Dr. P.K. Naik and, S. K. Jain Central Ground Water Board,
Nagpur, Dr. S.S. Thigle and Dr. N.J. Pawar, University of Pune, Pune, and Dr.A.B. Narayanpetkar, Shivaji University, Solapur for their valuable guidance and discussion.

The author is highly thankful to Executive Engineer, Minor Irrigation State and Local sector, Zilla Parishad, Amravati for providing the information regarding artificial recharge structure constructed.

The most difficult hurdles seems simple and easy when friends with their mere presence leave one across, hence my appreciation goes to M. Chandradas (GSI), Ashok Shukla (MECL), Mahendra Khutate and Shri Lohe (GSDA) for the assistance they have provided to me during my research work.

My sincere thanks are also due to colleagues Dr. Sandhya.L.Umak, Prof. Anil.J. Gadewar, Prof. Pramod.S. Rawale, Prof. Satish.V. Kulkarni, Dr. Ashok.K. Srivastava, Prof. Premanand.S. Tidke, Manish Deshmukh, and V. Kashi for their generous help as and when needed.

The teacher fellowship received from the University Grant Commission, Western Region, Pune is thankfully acknowledged.

No expression is ever adequate to express my thanks to my wife Vidya for her enthusiastic and dedicated effort of typing and formatting the entire text of the thesis as well as active help in the completion of the work. I owe her so much for encouragement and forebearance. The ever smiling, cheerful and loving Akshay is also acknowledged for all that he does for me. Lastly but not least I would like thank all those who had helped me directly or indirectly during my course of research.

(Sunil Pundlik Khadse)

Amravati.
Dated 16-8-2002.
