

## **ACKNOWLEDGMENT**

*I have no words to express my heart-felt thanks to Professor Yogendra Singh, my affectionate Supervisor, without whose help it would have been difficult for me to complete this research assignment leading to Ph.D.*

*I will fail in my duty, if I don't acknowledge Professor R.K. Jain, Professor M.N. Panini, Professor K.L. Sharma, Professor C.N. Venugopal, Professor Dipankar Gupta and Dr. Anand Kumar who have always encouraged me in my research programme. Let me utilize this opportunity to express my gratitude to my wife Shahla Hosseini (Dindarlou) who has always cooperated with me and without her cooperation it would have been very difficult for me to complete this work. I am also thankful to my father and mother-in-law who extended their moral support to me. It is great pleasure for me to express gratitude to my children Jamak, Nazak and Mir Arjany, whose affectionate moral support encouraged me all the time. I also express my thanks to my brother-in-law Mr Abbas Dindarlou. Who extended his moral support to me. It is with great pleasure that I utilize opportunity to show my gratitude to Mr. M.K. Emami, Ph.D student Dept. of Genetics, I A R I , Pusa, New Delhi for his encouragement and moral suport. Mr. G. Nabi-Itoo is another person whom I would like to express my gratitude for his cooperation and support.*
