ACKNOWLEDGEMENT

During the course of this study, I have received moral and academic support from all quarters. I am profoundly indebted to my supervisor, Prof. Ashok Mathur for his invaluable guidance and unfailing patience all through my period of research under him. But for his encouragement and academic guidance it would not have been possible to complete this study.

I am grateful to the Chairperson, Prof. A.H. Kidwai, for her cooperation and help during the period of this study. I would like to express my sincere thanks to Prof. G.S. Bhalla, Prof. G.K. Chadha, Prof. Kusum Chopra, Prof. A. Kundu and Prof. M.K. Premi for their valuable suggestion and encouragement.

I am also grateful to Dr. D.M. Diwakar, for his valuable suggestions at the initial stages of this study. I owe a large moral debt to my friend Dr. K.K. Tripathi who was always ready to give moral and academic support during the period of this study.

I am thankful to the Principal Dr. S.P. Shukla and other colleagues of J.N. College, Pasighat, where I joined as a Lecturer during the period of this study, for their kind
cooperation and moral support. My sincere thanks are also due to my friend Mr. P.K. Choudhary and his wife Rashmi for their cooperation and moral support during my stay with them while writing the first draft of this thesis.

I am grateful to Mr. Satish Kamath for doing the computer analysis meticulously. I am also thankful to Mr. Harish Bisht for giving present shape to the illegibly written manuscript.

I shall always remember the assistance and moral encouragement that I ungrudgingly received from members of my family. Their patience to bear my absence from home for years together forced me to complete the study.

Last but not the least, I wish to put on record my appreciation for the help rendered and patience shown by my wife, Saroj Jha.

However, I am alone responsible for the errors, if any, in the study.
