LIST OF TABLES

4.1 : Summary of Market, Material and Labour Orientations by Industry 101
4.2 : Summary of Findings with Respect to Linkages 122
5.1 : Comparison of Results of Using Different Measures of Geographic Association 131
5.2(a): Coding of Linkages and Association Data 138
5.2(b): Summary of Bilateral Linkages and Associations of Industry 139
6.1 : Summary of Individual Characteristic Findings 144
6.2 : Integration of Orientation, Linkage and Association Findings 146
6.3 :Comparison of Total Linkages and Associations of Industry Pairs 147
6.4 : Integration of Demand-supply, Strong-Weak Linkage Findings with Geographic Association Findings 149
6.5 : Comparison of Effects of Strong and Weak Linkages 150
6.6 : Comparison of Effects of Supply and Demand Linkages 151
6.7 : Variation of Linkage and Association Relationships by Industry Orientation 152
6.8 : Characteristics of 15 Sample Industries Used in Regression Analysis 157
6.9 : Correlation of Various Orientation Variables with the Coefficient of Geographic Association 166
6.10 : Regression Results of Model 1 170
LIST OF APPENDICES

I : List of Industries selected for the Study 172
II : List of Regions Included in the Study 175
