CHAPTER NO.  | TABLE OF CONTENTS                      | PAGE NO. |
-------------|---------------------------------------|----------|
DEDICATION   |                                       | i        |
ACKNOWLEDGEMENT|                                     | ii       |
LIST OF PUBLICATIONS |                      | iii      |
LIST OF TABLES       |                                     | iv       |
LIST OF FIGURES       |                                     | vi       |
ABBREVIATIONS        |                                     | viii      |
ABSTRACT            |                                     | xi       |

CHAPTER 1 – INTRODUCTION

1.1 Introduction 1
1.2 Problem statement 1
1.3 Schematic flow for Intrusion Detection 1
1.4 Objective 3
1.5 Scope of the present work 3
1.6 Methodologies 3
1.7 Intrusion in Computer networks 3
1.7.1 Intrusion Detection classification 4
1.7.2 Approaches to Intrusion Detection 5

1.7.3 Categories of attacks 6

1.8 Organization of the dissertation 15

1.9 Summary 15

CHAPTER 2 – RELATED WORKS

2.1 Introduction 17

2.2 Literature of review 17

2.3 Summary 35

CHAPTER 3 – IMPLEMENTATION OF BACKPROPAGATION ALGORITHM

3.1 Introduction 36

3.2 KDD99 dataset features 36

3.3 Patterns used for Training and Testing 52

3.4 Artificial Neural Network 53

3.4.1 Normalization of the patterns 58

3.4.2 Selection of patterns for training 58

3.4.3 Training strategies for the Network 59

3.5 Back Propagation Algorithm 60

3.5.1 Steps involved in training BPA 61
CHAPTER 4 – IMPLEMENTATION OF ECHO STATE NEURAL NETWORK FOR INTRUSION DETECTION

4.1 Introduction 66
4.2 Echo State Neural Network 66
   4.2.1 Training ESNN Algorithm 68
   4.2.2 Implementation of Echo State Neural Network 69
4.3 Results and Discussions 72
4.4 Summary 77

CHAPTER 5 – IMPLEMENTATION OF RADIAL BASIS FUNCTION AND COMBINATIONS OF ANN FOR INTRUSION DETECTION

5.1 Introduction 78
5.2 Radial Basis Function 78
5.3 BPA with RBF FOR INTRUSION DETECTION 84
5.4 BPA with ESNN RBF FOR INTRUSION DETECTION 85
5.5 RBF with ESNN RBF FOR INTRUSION DETECTION 85
5.6 Conclusion 86
CHAPTER 6 – RESULTS AND DISCUSSION

6.1 Accuracy of Intrusion Detection 87
6.2 Receiver Operating Characteristics Curves 88
6.3 Summary 90

CHAPTER 7 – CONCLUSIONS AND FUTURE SCOPE OF THE WORK

7.1 Conclusions 91
7.2 Future Enhancements 92
