ACKNOWLEDGEMENT

First and foremost, I would like to thank Allah, Al-Mighty for helping me in doing this research study, without His help, I could not have done it. Next, my sincere thanks to the many people who helped with this research, and without whom this thesis would never have been completed. In particular, I would like to thank my supervisor, Dr. S.S. Kanade, for accepting me to be one of his students and for his motivation, endless help and greatest patience.

I am deeply grateful to all those who support me financially in producing this work, my special thank would be sent to my greatest parents, and brothers, Rami and Magdi, and my friends Adel Ali Seb’a and Yasser Nasser.

I would like to thank Dr. Rafiq Al-Shamiry, Dr. Adnan Saeed, Dr. Nabil Assomiate, Dr. Nancy Zingrone, Dr. Abdullnasser Alnakeeb, Abla Bella, and Mr. Aref Nassi for the many hours they spent while proofreading my first draft chapters.

I owe a particular debt of gratitude to Prof. Pat Bazeley, (Macquarie University) for all her excellent tips about my conclusion.

Special thank would be acknowledged to all the following doctors: Nancy Zingrone, Doris Molero, Janet Salmons, Reza Mobashshernia, Abdullanasser Alnakeeb, Fowzia Bin Othman, Adel Khaleq, and Adnan Saeed, for referring my questionnaire.

I would also want to thank Dr. Donna Butler, and Prof. David L Morgan (Portland State University) for their guidance about the research methodology and design.

I owe my friend, Abdo Saeed for all his help and appearance on my behalf in front of the university.

A special thank is also acknowledged to all secondary school teachers in Yaffea, who participated by giving their opinions as well as allowing me to attend their class to observe them.

Finally, I would like to thank all whosoever helped me with any kind of help to make this work fulfilled and existed.
