ACKNOWLEDGEMENT

Classification is for sensible data,
No classification is for nonsensical data,
High are the images of intellectuals,
No commonsense means remote are the chances,
Profound is the influence of satellites,
So, used my positive sense, jumped into the
ocean of knowledge, collected sensible tools,
Performed the classification of satellite images
through Remote Sensing!
Thrilled was I, at each step
wonderful was my experience
Enhanced is my image!

Of course, all through the Blessing of my Guru!

I Acknowledge the blessings conferred by Kanchikamakoti Peetadhipathigal His Holiness Sri Sri 1008 Sri Jayendra Saraswath Swamigal and His Holiness Sri Sri 1008 Sri Vijaydendra Saraswathi Swamigal with utmost humility and reverence.
