Acknowledgement

Prima facie, I am grateful to the Almighty God for the good health and wellbeing that were necessary to complete this Thesis.

Though only my name appears on the cover of this Thesis, a great many people have contributed to its production. I owe my gratitude to all those people who have made this thesis possible and because of whom my research experience has been one that I will cherish forever.

My deepest gratitude is to my research guide, Prof. D.C. Gautam, Department of Chemistry, University of Rajasthan, Jaipur. I have been amazingly fortunate to have a guide who gave me the freedom to explore on my own and at the same time the guidance to recover when my steps faltered. He taught me how to question thoughts and express ideas. His insightful comments and constructive criticisms at different stages of my research were thought provoking and they helped me to focus on my ideas. I am grateful to him for holding me to a high research standard and enforcing strict validations for each research result, and thus teaching me how to do research. His patience and support helped me overcome many crisis situations and finish this Thesis. I hope that one day I would become as good an advisor to my students as he has been to me.

I am profoundly grateful to Dr. Naveen Gautam, Lecturer, Department of Chemistry, L.B.S. Govt. P.G. College, Kotputli, Jaipur for his insurmountable guidance and the long discussions that helped me sort out the technical details of my work along with improving my
knowledge in the area. I am also thankful to him for his constant support and carefully reading and commenting on countless revisions of this manuscript.

I am sincerely thankful to Prof. Anshu Dandia, Head, Prof. Vineeta Sareen, Prof. R. V. Singh, Prof. Renuka Jain, Prof. P. S. Verma and Prof. P. D. Sharma Ex. Head, Department of Chemistry, University of Rajasthan, Jaipur for providing me necessary departmental and library facilities due to which I have culminated my research work fruitfully.

I am immensely indebted to Prof. O.D. Gupta, Prof. I.K. Sharma, Dr. M.K. Pathak, and Dr. A.K. Yadav, Department of Chemistry, University of Rajasthan, Jaipur and express my heartfelt thanks for their continuous encouragement and valuable practical advices that not only helped me understand my research area better but also enriched my ideas.

I am grateful to S. P. Biotechnology, Jaipur for their aid in carrying out antimicrobial and antitubercular activities of synthesized compounds.

I am extremely thankful to Mr. S.N. Sharma, Mr. R.K. Sharma, Mr. Suman Gupta, Mr. D.K. Gupta, Mr. S.P. Sharma and Mr. Justin Vetha Raj for their assistance and support in technical domain.

I express my genuine gratitude to UGC, New Delhi for the award of Junior Research Fellowship and CDRI, Lucknow for providing Mass spectral facilities.

Particularly, I would like to acknowledge my laboratory colleagues Dr. Vibha Gautam, Dr. Yogesh Dixit, Dr. Rahul Dixit,
Dr. Meenakshi Sharma, Dr. Shikha Agarwal, Dr. Neha Ajmera, Dr. Dinesh Kumar Arya, Dr. Mukesh Kumar Sharma, Dr. Ajay Kumar Bishnoi, Dr. Kshamata Goyal, Dr. Nishidha Khandelwal, Dr. Abhilasha, Dr. Ankita Garg, Mr. Dinesh Kumar Jangid, Mr. Sudesh Kumar Gupta, Mr. Arun Goyal and Mrs. Asha Verma for their enormous support, affection and care that helped me overcome setbacks and stay focused on my research.

My friends Dr. Anshu Rajawat, Dr. Sarita Khandelwal, Miss Anita Choudhary and my cousins Mr. Manish Guleria and Mr. Anuj Guleria have helped me stay rational through these years. I greatly value their emotions and I deeply appreciate their belief in me.

Most importantly, none of this would have been possible without the love and patience of my family. I especially thank my beloved mother Mrs. Pawan Guleria, my father Late Shri Basant Guleria and brother Mr. Vivek Guleria. My hard-working mother has sacrificed her life for my brother and myself and provided unconditional love and care. She is my ‘Iron Lady’ and without her my existence is unthinkable. I love her so much, and I definitely would not have made it this far without her. My father was the one who had always told me that I could. Although I was very young when God took him away yet he was such an extraordinary man that in such a short span of time he taught me everything what a person needs to know for achieving excellence. He had always used to say live simple, dream big, look forward and always follow your heart. My brother has been my best friend and adviser all my life and he always inspired me. Whenever I felt lost or disappointed he was always there for
me with his zillion encouraging stories (some of which were surely made up) to cheer me up. He is the elder brother every sister dreams of and I am the luckiest to have him. I love him dearly and thank him for all his suggestions, love and support.

I would like to express hearty thanks to Kudiwal Typing Institute, Jaipur for typing my thesis work in time and systematically.

Lastly, I am thankful to all those who helped me directly or indirectly in the completion and compilation of this thesis, which will always remain in my memories.

Place: Jaipur
