ACKNOWLEDGEMENT

I would like to record my deep sense of gratitude and indebtedness to Dr. Jacob Chacko, Reader, Chemical Oceanography Division, School of Marine Sciences, Cochin University of Science & Technology, my supervising teacher, for suggesting this research topic and for his inspiring encouragement and guidance during the course of this research work.

I remember with gratitude the encouragement and help given to me by the late Prof.(Dr.) P.N.K. Nambisan, Former Director, School of Marine Sciences, Cochin University of Science and Technology.

I express my sincere thanks to Dr. N. Chandramohanakumar, Lecturer, Chemical Oceanography Division, School of Marine Sciences, for his co-operation and interest, valuable suggestions and discussions during the progress of my research work.

I am grateful to Prof (Dr.) N. R. Menon, Director, School of Marine Sciences, for his keen interest in this study.

I wish to acknowledge with deep indebtedness the cooperation and help given by my colleagues, friends and the staff of the School of Marine Sciences during the entire tenure of this research work.

Finally I wish to express my gratitude to the University Grants Commission, New Delhi, for the financial assistance, to the Cochin University of Science & Technology for the facilities. Metal analyses were carried out on the Atomic Absorption Spectrophotometer gifted by the von Humbolt Foundation, Bonn, West Germany.
