ACKNOWLEDGEMENT

I consider myself extremely fortunate to have had the privilege of working under the inspiring supervision of Dr. Vijay Khole, Prof. and Head, Department of Biophysics, Govt. Institute of Science, Aurangabad. I have gained knowledge in many ways from his research oriented mind, precision, professional efficiency and his relentless pursuit for excellence. His enthusiasm and constant encouragement and support made it possible for me to carry out this research work.

I am grateful to the Director, Govt. Institute of Science, Aurangabad for facilities and encouragement, and authorities, Higher Education, Maharashtra State, Poona for permission to carry out this work while serving at the Institute. Through these lines I wish to convey my heartfelt appreciation for the encouragement and the moral support provided by Dr. G. V. Patil, Vice Chancellor, Amravatī University, Amravatī and Dr. S. P. Nanir, Head, Department of Botany, Govt. Institute of Science, Aurangabad.

The hope of undertaking this study and successfully completing it would have perhaps remained unfulfilled but for the invaluable suggestions of Dr. M. B. Kalbande, Head, Cardiovascular Surgery Department, Govt. Medical College and Hospital, Aurangabad. I express my deep sense of gratitude to Dr. S.H. Talib, Head, Department of Medicine, Govt. Medical College and Hospital, Aurangabad for technical facilities and helpful suggestions. I also thank Dr. Nawal Malu for permitting me to carry out lung function test on "Spiroscreen" at his hospital.
I am thankful to Dr. M. N. Deshpande, Head, Department of Statistics, Institute of Science, Aurangabad and Dr. N. G. Bapat, Head, Department of Commerce, Marathwada University. Their association has helped to gain clarity in many statistical concepts during the analysis of the present work. I profusely thank my colleagues Mr. S. G. Kulkarni and Mrs. A. D. Khare for their kind cooperation. Their association kept me in good humour throughout. My thanks are also due to Mr. P. M. Dongre and Mr. S. N. Salunke for their invaluable help in preparation of the manuscript.

It is my great pleasure to express my indebtedness to my wife Mrs. Kalpana for her extreme co-operation. Without her endurance and patience this work probably would not have been possible. I must add that my parents and other near and dear relatives and friends were also a great source of inspiration during this endeavour.

(B.B. Kadu)
