## Contents

### Chapter I
INTRODUCTION 1

### Chapter II
BIOCHEMICAL COMPOSITION, SPOILAGE AND SENSORY EVALUATION 9

- Materials and Methods 13
- Results 16
  - Proximate Composition
  - Examination of Spoilage
  - Sensory quality and Reconstitution properties
- Discussion 28

### Chapter III
NUTRITIONAL EVALUATION OF FISHES 37

- Materials and Methods 41
- Results 44
  - Growth rate, Protein efficiency ratio, Digestibility and Biological Values of the Proteins by feeding to experimental animals
  - Digestibility of Proteins in vitro
  - Alpha-amino N released in enzyme action
- Discussion 56
Chapter IV
MICROBIOLOGICAL QUALITY AND IDENTIFICATION OF PATHOGENIC ORGANISMS
Materials and Methods 61
Results 66
Total Bacterial Count, Total Fungal Count 69
Detection of Pathogenic Bacteria, viz., Coliforms, E. coli, Salmonella, Staphylococcus aureus, faecal Streptococci etc.
Discussion 82

Chapter V
MICROFLORA ASSOCIATED WITH FISHES 90
Materials and Methods 93
Results 94
Identification of bacterial flora 94
Identification of fungal flora
Discussion 115

Chapter VI
SUMMARY AND CONCLUSION 122
