

ACKNOWLEDGMENTS

Above all I would like to thank my supervising teacher Dr.H.S. Ram Mohan, Professor and Head, Department of Atmospheric Sciences, School of Marine Sciences, Cochin University of Science & Technology, for his guidance and unwavering support, extending back almost eight years to when I first came to Cochin University of Science & Technology as an M.Sc student.

I am also grateful for the support and advice given by the other members of my research committee: Dr. C. K. Rajan and Dr.K. Mohana Kumar. I am also indebted to Shri. M. G. Seshagiri Rao and Prof. P. G. Kurup, the former Heads of the Physical Oceanography and Meteorology Division for providing me all the facilities and support. Indebtedness that is due to Prof. N. R. Menon, Director, School of Marine Sciences is great.

I would like to extend my gratitude to Dr. G.S.L.H.V. Prasada Rao, Associate Professor, Regional Agricultural Research Station (RARS), Pilicode, Kerala Agricultural University, Dr. K.Anila Kumar, Associate Professor and Prof. Krishnan Nair, Director, RARS, Pattambi, Kerala Agricultural University for the supply of crop and weather data for my work. I am grateful to the State Meteorological Centre, India Meteorological Department, Trivandrum, and Bureau of Economics and Statistics, Govt. of Kerala, Trivandrum for the supply of rainfall, temperature and agricultural data for my work.

I am very much thankful to Dr. C. A. Babu and Dr. K.R. Santosh, Lecturers in the Department of Atmospheric Sciences, for extending continuous help in computer programming and operations. I wish to express my gratitude to Prof. Unnikrishnan, Head, Department of Statistics, Cochin University of Science & Technology for giving me valuable instructions and suggestions in Principal Component Analysis. I am thankful to Shri. Krishna Iyer, CIFT, Kochi, for his valuable help in statistical analysis.

I acknowledge the authorities of CSIR, New Delhi, for providing me a fellowship during my period of research.

I am glad to have this opportunity to express my sincere thanks to Dr. Shadananan Nair, former Research Associate in the Department, Dr. E. Saravanan and P.V.S.S.K Vinayak of Centre for Earth Sciences Studies, Shri. T Neelakantan, Lecturer, University College, Trivandrum, Dr. M. E. James, Lecturer, Gujarat University, Dr. P. V. Lekha, all my teachers, non-teaching staff of School of Marine Sciences and to all other colleagues and friends for extending their co-operation and valuable assistance in different phases of my research work.

Finally I thank my parents, husband and other family members for their love and constant encouragement.
