ACKNOWLEDGEMENTS

I wish to express my deep sense of indebtedness to Dr. S.S. Pawar and Dr. M.S. Kachole for their valuable guidance, keen interest and constant encouragement during the entire research work.

It is my pleasure to thank Professor R.W. Estabrook, Professor and Chairman, Department of Biochemistry, Health Science Centre, University of Texas, Texas, Dallas, USA, for the valuable suggestions made by him when a part of this thesis was presented at XI International Congress in Biochemistry held at Toronto, Canada, from 7th July to 14th July 1979.

I would like to express my thanks to the authorities of Marathwada University, Aurangabad, for providing research facilities.

I am grateful to the University Grants Commission, New Delhi, for the financial assistance under the scheme of Faculty Improvement Programme.

Sanctioning of leave to carry out research work by the Principal and authorities of the First Grade College of Arts, Science and Commerce, Tirthahalli, Karnataka, is gratefully acknowledged.

Lastly, I must thank all my colleagues for their help and kind co-operation during the whole course of my research work.

(K. GOPALAKRISHNA HEBBAR)
