ACADEMICALLY ambitious that I am, permit me to express my deep felt gratitude and obligation for 'ALL' who helped me in completing this task.

BOWING my head as a humble token of my venerable salutation to them I stand with emboldened hands.

CONFRONTING with that noble academic giant 'Archaeology' this pygmy, myself, ought not have finished research recordings but for the warm-hearted paternal attitude of My Guide, the sweet chidings of my Father and the 'Apple of the eye' attitude of all Maraiyurians to me--to 'these' I have dedicated this thesis to the fullest extent.

DOCTORAL (My) thesis concerning the prehistoric observations in South Central Kerala has become a reality primarily due to the 'CHARITY FIND NO BOUNDS' attitude of many elders and enlightened personalities who moulded the official Archaeologist-Research thinker in me.

ENGAGED in this antique discipline I always feel flattered to record that I belong to that family of 'Deccan College Archaeologists', under whom I could learn the alphabets of archaeology—to them I express my worshipful regards and a silent reverential word of sentiment i.e. to my teachers—Padmabhuskan Dr. H.D. Sankalia, Dr. Z.D. Ansari (who initiated me into research) Dr. A.M. Ghatge (former Director, Deccan College) Dr. R.V. Joshi, Dr. S.B. Deo, (the present Director of the Deccan College,) Dr. V.N.
