

Acknowledgement

I take this opportunity to express deep sense of gratitude to my guide Dr. Mrs H. SivaRaman for her guidance, constant encouragement and sustained interest during this work. Her considerate nature and parental care has helped me in overcoming many hurdles during the course of this investigation.

I am equally obliged to Dr. M. I. Khan for his invaluable guidance and incessant encouragement. He always has been a source of inspiration for me and his unfailing support and motivation throughout the course of this work has led it to completion.

I am extremely grateful to Dr. D. V. Gokhale for his able guidance especially during initial stages of the investigation. His keen interest in this work always encouraged me and his valuable suggestions and constructive discussions were very helpful indeed.

I express my sincere gratitude to Dr. C. SivaRaman for invaluable suggestions during the thesis writing.

I sincerely acknowledge Dr. V. Shankar for his timely help, useful suggestions during the thesis writing and constant support during the entire course of the investigation.

I would also like to thank Dr. Aditi Pant for providing the microscopic facilities.

I appreciate National Facility for Peptide Sequencing and Prof. A. K. Lala for N-terminal sequencing.

I would like to record my thanks to Mr. Rajdeep Dongre, Agharkar Research Institute, for helping me in carrying out SEM analysis.

The excellent technical assistance and maintenance of the equipments by Mr. Modak, Mr. Kamthe and Mr. Karanjkar is gratefully acknowledged. I would also like to thank Ms Usha Deshpande and Indira for their excellent secretarial assistance.

I would like to say heartfelt “ thank you” to my labmates Varsha, Saroj and Farhana for maintaining friendly and healthy atmosphere in the lab and the timely help rendered. The moments shared with them are unforgettable. My special thanks to Rangu who was ever-ready to help me and my friends

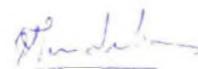

Bhagyashree and Vaishali D. who were always behind me during good and bad times.

I shall always cherish the joyous moments spent with Veena, Amutha, Madhura, Sarita, Shamim, Urmila, Sneha, Neeta, Sathi, Rajashree, Anjali and all other members of Biochemical Sciences division. My special thanks to Dr. Sumedha and Dr. Sushama who always maintained cheerful environment.

No words can suffice the encouragement and relentless moral support rendered by my parents and other family members. It is their blessings that kept me on right track till the end.

I thank Dr. P. K. Ranjekar, Head, Division of Biochemical Sciences and the Director, National Chemical laboratory, for permitting me to submit this work in the form of thesis. The financial assistance from Council of Scientific and Industrial Research, India is gratefully acknowledged.

-Vaishali
