Summary

1 - 6

CHAPTER 1 : GENERAL INTRODUCTION

7 - 67

1.1 Definition

1.2 History

1.3 Classification

1.3.1 Plant lectins

1.3.2 Animal lectins

1.3.3 Microbial lectins

1.3.3.1 Bacterial lectins

1.3.3.2 Fungal lectins

1.3.3.3 Viral lectins

1.3.3.4 Protozoal lectins

1.4 Plant Pathogenic Bacteria

and their Attachment to host
surface

1.5 Biological functions of

microbial lectins

1.6 Structural basis of lectin-

carbohydrate interactions

1.7 Present investigation

References

CHAPTER 2 :	PURIFICATION AND CHARACTERIZATION OF LECTINS FROM <i>Agrobacterium radiobacter</i> ATCC 6466	68 - 111
	Summary	
	2.1 Introduction	
	2.2 Materials and methods	
	2.3 Results	
	2.4 Discussion	
	References	
CHAPTER 3	CHEMICAL MODIFICATION OF LECTINS FROM <i>Agrobacterium radiobacter</i> ATCC 6466	112 - 126
	Summary	
	3.1 Introduction	
	3.2 Materials and methods	
	3.3 Results	
	3.4 Discussion	
	References	
CHAPTER 4	PURIFICATION AND CHARACTERIZATION OF A LECTIN FROM <i>Xanthomonas campestris</i> ATCC 29497	127 - 151
	Summary	
	4.1 Introduction	
	4.2 Materials and methods	
	4.3 Results	

4.4 Discussion

References

CHAPTER 5 GENERAL DISCUSSION 152 - 164

5.1 Plant - Microbe interactions

5.2 Pathogenicity factors of
Agrobacterial infection

5.3 Pathogenicity factors of
Xanthomonas infection
