

## ACKNOWLEDGEMENTS

Many individuals have been instrumental in the completion of this work. I would like to thank each of these for their contributions to both this project and to my progress over the last several years.

I am deeply indebted to **Dr. S.R.Naik, M.Sc., Ph.D., and F.R.C.S.** for his excellent guidance, keen interest and critical appreciation throughout the course of this work. I also wish to state my sincere gratitude for his invaluable help rendered during the preparation of the thesis.

I am grateful to the Managing Director, Hindustan Antibiotics Limited for granting permission to conduct this research work at Research and Development Division.

Several individuals have been indispensable to my progress and survival throughout this project. I would like to thank Mr. S.S. Karkhanis, Dr. N. R. Chatterjee, Dr.K.P.Jadhav, and Mr.J.N.Dhule for representing what is best in the process of scientific inquiry by always having the time and interest in discussing experimental results and their implications with me. I would also thank to Mrs. Geeta Iyer for their help in completing this work. I would also like to thank Mr. Khape and Mrs. Nagarkar (Library of Bioinformatics, DIC, University of Pune) for their kind support during the reference work. I thank all of them also for exemplifying the qualities that truest and best in both colleagues and friends.

I sincerely acknowledge with regards the efforts made by Dr. Vinod Bihari, Deputy Director & Head Division of Fermentation technology, Central Drug Research Institute, Lucknow for arranging complete references of different  $\beta$ -cyclodextrin derivatives and Director, National Chemical Laboratory, Pune for granting kind permission to carrying out

<sup>31</sup>P- NMR measurements for investigating structural organization of proliposome mixtures and Differential Scanning Calorimetry (DSC) for verification of drug :  $\beta$ -cyclodextrin complex formation .

I gratefully acknowledge the valuable advice and constructive criticism during research work by Dr. S.K.Banerjee, Professor (Retd.), Dept. of Pharmacy, M.S. University, Baroda (Gujrat).

Of course the help and friendship of numerous other individuals, which space does not permit elaboration on, is also greatly appreciated.

Finally, I must thank my family including my mother, my father in law, my loving daughter Amiya and dearest wife Madhuri for their steadfast support and belief in me. They have been besides me constantly as source of great inspiration. Their endless encouragement has helped me immensely to give my thesis its finishing touch.

**Kishor K. Chakraborty**
