

## **List of Boxes, Figures and Tables**

### **Boxes**

2.1	Variables Employed in the Study	33
2.2	Typology of Participation	35
3.1	Linkages between Poverty and Water and Sanitation	57
3.2	Policy features of Supply and Demand-Driven Approaches	58

### **Figures**

2.1	Sampling Process	42
2.2	Bivariate Analytical Model	48
5.1	Effect of “Member of the SHG’ as a Control Variable	110
6.1	Scree Plot	163

### **Tables**

4.1	Distribution of Respondent’s Representation in the Decentralised Committee	80
4.2	Distribution of Duration of Women Representative in the Decentralised Institution	81
4.3	Distribution of Respondents’ Age	81
4.4	Distribution of Age and Marital Status of the Committee Members	82
4.5	Distribution of Respondent’s Caste	83
4.6	Non-Tribal Village-wise Representation of Women’s Caste Category in VWSC	84
4.7	Distribution of Committee Member’s Educational Qualification	86
4.8	Distribution of Respondent’s Family Income (per annum)	88
4.9	Distribution of Respondent’s Ration Card	89
4.10	Distribution of Respondent’s Occupation	90
4.11	Distribution of the Process of Becoming the Member of the Decentralised Institutions	93
5.1	Distribution of Committee Meeting Attendance Rate	100
5.2	Distribution of Time Period of the Committee Meetings	101
5.3	Distribution of Responses to Mahila Gram Sabha held prior Gram Sabha	102
5.4	Distribution of Gram Sabhas Attended in a Year	103
5.5	Distribution of Gender Proportion of Participation at Committee Meetings	104
5.6	Distribution of SHG Membership and Gender Proportion of Participation at Committee Meetings	105
5.7	Distribution of Reasons for Women’s Participation in Jalswarajya Project	106
5.8	Distribution of Caste and Participation to bring Change in	107

	Women's Conditions	
5.9	Distribution of Caste and Participation to bring Change in Women's Conditions (Controlling for Member of the SHG)	109
5.10	Distribution of Caste and Women's Responsibility to Provide Drinking Water to Family Members	111
5.11	Distribution of Gender Groups Most Vocal at Gram Sabha	114
5.12	Distribution of Member of the SHG and the Most Vocal Gender Groups at Gram Sabha	116
5.13	Distribution of Family Decision Pattern to Construct the Water Pipeline/Toilet at the Household Level	120
5.14	Distribution of Member of the SHG and Decision Making Process for Construction of Water Pipeline/Toilet at Household Level	122
5.15	Distribution of Annual Income and Decision-making Process for Construction of Water Pipeline/Toilet at the Household Level	123
5.16	Distribution about the Awareness of Preparing the Women Development Plan (WDP)	125
5.17	Distribution of Knowledge about Jalswarajya Project Budget	126
5.18	Distribution of Reasons for Lack of Knowledge about the Jalswarajya Project Budget	127
5.19	Distribution of Women Groups Trained for Collection of Water Tariffs	128
5.20	Distribution of Awareness about the Roles and Responsibilities of VWSC, WDC and SAC members	129
5.21	Distribution of Most Vocal at the Gram Sabha and the Knowledge about the Budget of the Project	131
5.22	Distribution of Most Vocal at Gram at Gram Sabha and Knowledge about the Budget of the Project (Controlling for Member of the SHG)	132
6.1	Distribution of Gender Position of Signatories for VWSC and WDC	144
6.2	Distribution of Gender Presidency Position in VWSC and SAC	144
6.3	Distribution of SHG Membership	146
6.4	Distribution of Caste and Member of the SHG	147
6.5	Distribution of SHG Meetings Held	148
6.6	Distribution of SHGs Linked to Financial Institutions	149
6.7	Distribution of SHGs undertaken Income Generation Activities (IGAs)	150
6.8	Distribution of Responses for Not Undertaking Income Generation Activities	150
6.9	Distribution of Utilising the Women Empowerment Fund (WEF)	151
6.10	Distribution of Skills Learned by SHG Members	152
6.11	Distribution of Leadership Skills Learned and the Most Vocal at the Gram Sabha	153
6.12	Distribution of Member of the SHG and Seek Permission from the Husband or In-laws to Attend SHG Meetings	155
6.13	Distribution of Leadership Skill Learned and Travel Alone Outside the Village	156

6.14	Distribution of Drinking Water and Sanitary Infrastructures Constructed on the Convenience of Women	<b>158</b>
6.15	Gender Disaggregated Household Labour	<b>159</b>
6.16	KMO and Barlett's Test Results Factor Loadings and Communalities based on a Principle	<b>162</b>
6.17	Component Analysis with Oblimin Rotation for 14 items from the Benefits of Drinking Water and Sanitation Project	<b>164</b>
6.18	Descriptive Statistics for the Three Benefits of Drinking Water Scale Factors	<b>165</b>
