	List of Tables	
	List of Figures	
I	CONCEPTUAL FRAMEWORK OF STUDY	1-52
1.1	Introduction	1
1.2	Statement of the Problem	44
1.3	Significance of the Problem	44
1.4	Objectives of the Study	46
1.5	Delimitations of the Study	47
1.6	Operational Definitions of the Variables	
II	REVIEW OF RELATED LITERATURE	53-110
2.1	Introduction	53
2.2	Related Studies	53
	2.2.1 Research Studies related to Experiential Learning	53
	2.2.2 Research Studies related to Locus of Control	74
	2.2.3 Research Studies related to Spatial Geometry Skills	82
2.3	Overview	101
2.4	Hypotheses	103
III	METHOD AND PROCEDURE	111-152
3.1	Introduction	111
3.2	Research Method	111
3.3	Research Tools	113
	3.3.1 Instructional material for Implementing Experiential Learning Strategies	113
	3.3.2 Formative Tests in Areas of Geometry	126
	3.3.3 Test of Spatial Geometry Skills	131
	3.3.4 Locus of Control Test for Primary School Students	139

3.4	Sample	140
3.5	Procedure Adopted in Data Collection	142
3.6	Scoring of Tools	144
	3.6.1 Test of Spatial Geometry Skills	144
	3.6.2 Locus of Control test	144
3.7	Formation of Factorial Design	144
3.8	Statistical Treatment of Data	151
IV	ANALYSIS AND INTERPRETATION OF DATA	153-190
4.1	Analysis of Formative Tests	154
4.2	Analysis of Test of Spatial Geometry Skills	155
4.3	Discussion of the Results	180
V	SUMMARY, CONCLUSIONS, EDUCATIONAL IMPLICATIONS AND SUGGESTIONS FOR FURTHER RESEARCH	191-218
5.1	Summary	191
	5.1.1 Statement of the Problem	196
	5.1.2 Objectives of the Study	196
	5.1.3 Hypotheses	197
	5.1.4 Delimitations	203
	5.1.5 Operational Definitions	204
	5.1.6 Methodology	205
	5.1.7 Sample	205
	5.1.8 Research Tools	206
	5.1.9 Procedure Adopted in Data Collection	206
	5.1.10 Organization of Data	207
	5.1.11 Analysis and Interpretation of Data	208
5.2	Conclusions	213
5.3	Educational Implications	216
5.4	Suggestions for Further Research	218
	BIBLIOGRAPHY	219-243
	APPENDICES	
	APPENDIX – I	50 Lesson Plans
	APPENDIX –II	Geometry Skill Test
	APPENDIX – III	Locus of Control Test

LIST OF TABLES

Sr. No.		Page No.
3.1	Selection of Contents	113
3.2	Sequence of the action-oriented lesson plans	114
3.3	Unit wise distribution of Instructional objectives	115
3.4	Blue print of the formative tests	127
3.5	Item Analysis chart	128
3.6	Table of specifications for final drafts of the formative tests	131
3.7	Blue print for the test of spatial geometry skills	132
3.8	Revised Blue print for the test of spatial geometry skills	133
3.9	Item Analysis chart	134
3.10	Blue print of final draft of the test of spatial geometry skills	138
3.11	The items retained in the final draft of the test of spatial geometry	138
	skills at different cognitive levels	
3.12	Scores showing internal and external locus of control	144
3.13	Variables of the study	151
4.1	Means and percentages of means of formative tests of the internal	154
	and external locus of control groups of the experimental group	
4.2	Means and percentages of means of formative tests of the internal	154
	and external locus of control of the control group	
4.3	Summary of one-way analysis of variance on pre-test scores on the	158
	test of geometrical skills scores	
4.4	Means, medians, standard deviations, skewness and kurtosis of	159
	mean gain scores on total spatial geometry skills	
4.5	Worksheet for Bartlett's Test	161
4.6	Means and standard deviation of sub – samples of 2 x 2 x 2 design	162
	for mean gain scores on spatial geometry skills	
4.7	2 x 2 x 2 ANOVA for mean gain scores on spatial geometry skills	163

4.8	Means and Standard Deviations of sub – samples of 2 X 2 design for mean gain scores on spatial geometry skills	167
4.9	2 X 2 ANOVA for mean gain scores on spatial geometry skills of various units.	168
4.10	Means and standard deviation of sub – samples of 2 x 2 designs for mean gain scores on spatial geometry skills at knowledge, comprehension and application category of various units and the total	172
4.11	Summary of 2 X 2 ANOVA for mean gain scores on spatial geometry skills at knowledge, comprehension and application category of skills of various units and the total	173
4.12	Means and standard deviation of sub – samples of 2 x 2 designs for mean gain scores on spatial geometry skills at analyses, synthesis and evaluation category of various units and the total	177
4.13	Summary of 2 X 2 ANOVA for mean gain scores on spatial geometry skills at analyses, synthesis and evaluation category of various units and the total.	173
