ACKNOWLEDGMENTS

I take this opportunity to express my utmost gratitude and heartfelt thanks to my sagacious supervisor, Prof. Ajit Varma for his unflagging constant support and immense erudition this research would not have been possible. I am immeasurably indebted to him for providing me the opportunity to work under his able supervision.

I am grateful to Dr. Pramod C. Rath and Prof. Rajeev K. Saxena for their invaluable suggestions. I am thankful to the Dean, School of Life Sciences, for providing me the research facilities throughout.

I gratefully acknowledge Prof. Dr. Francois Buscot, Germany; Dr. Stephane Declercck, Belgium; Prof. H. Dehne, Germany; Prof. G. Host, Germany; Prof. Erika Hothe, Germany; Dr. Piotr Mleczyk, Poland; Dr. Uwe Nehls, Germany; Prof. M. Weiß, Germany; Prof. R. Prasad, JNU and Prof. A.K. Sarbhoy, TARI for providing the authentic fungal strains for the experiments without which it would not have been possible to complete the research.

Thanks are due to Prof. Ralf Oelmuller and Dr. Irena Sherameti, Germany for providing me antibody for the experiment.

I am grateful to personnel at Beej Bhawan, PUSA, New Delhi for providing me excellent variety of seeds without which it would have been difficult to carry out this work.

I take this opportunity to express my sincere thanks to Madam Mrs. Usha Varma, for providing me moral support throughout my stay in JNU. Expert technical assistance provided by Mr. AC Alexander, Mr. BA Khan and Dr. SP Sharma are duly acknowledged. Thanks are due to Mr. UC Tyagi, Animal House Incharge, JNU. Acknowledgement is due to Mr. RN Saini for his photographic assistance.
Thanks are due to computer Engineers, Mr. Narendra Gupta and Mr. Surender Rana for their ready help. Sincere laboratory assistance of Mr. Bishan Chand Bansal and Mr. Pandey are also acknowledged.

I gratefully acknowledge the financial assistance from University Grants Commission, New Delhi, India and Faculty Development Board, Tribhuvan University, Kathmandu, Nepal for enabling me to gain research exposure. Central Department of Microbiology, Kirtipur, Kathmandu, Nepal is acknowledged for giving opportunity to gain this invaluable experience.

I thank my lab colleagues Giang, Minu, Rajani, Ram Prasad, Rina and Vikas for their help and good wishes. I especially thank Anil for his computer assistance. Besides, I thank Saubiya, Akhilesh, Ali and Prem for their direct and indirect help to achieve my goal.

This endeavour would not have materialized without the blessings, love and moral support of my parents Prof. Narendra Bahadur & Shova Maharjan; my parents-in-laws Prof. Balaram Das & Rama Dangol and all the members of my family.

Finally, I am grateful for the cherished support and ever helpful suggestions of my husband Dr. Deepak Raj Singh, Assistant Professor in Surgery, Kathmandu Medical College, who stood by me through all ups and downs that I underwent both academically and otherwise. Lastly, dear little one, my son Praveer Raj Singh, who always prayed for and sacrificed his own joys for my success. A note of thanks goes to all unsung personages for helping me directly and indirectly.

Anjana Singh
(Maharjan)
