LIST OF FIGURES AND TABLES

Figure 1: Comparative Advantage Ladder
Figure 2: Technology Intensity of International Trade
Figure 3: Technological Accumulation: Basic Concepts and Terms
Figure 4: Technological Capability Building in Developing Countries or Latecomers
Figure 5: National System of Innovation
Figure 6: Determinants of Technological Capability
Figure 7: Korean Vehicle Production and Export (1962-2001)
Figure 8: Trends of HMC's Production and Export (1968-2001)

Table 1: The Major Components of Technology Policy
Table 2.1: Composition of GNP by Industrial Origin (1953–60)
Table 2.2: Economic Plan Objectives and Growth Rate (1962–1981)
Table 2.3: Industrial and Technology Policies (1960s and 1970s)
Table 2.4: MOST's Initial Targets and Objectives
Table 2.5: Modes of Technology Transfer to Korea
Table 2.6: R&D Expenditure and Structure of Korea (1965-1980)
Table 2.7: Exports by product group (Electronics sector) and Investor
Table 2.8: Composition of GDP in Korea (1963-1985)
Table 2.9: Output Growth in Manufacturing In 1967-1979 (selected sectors)
Table 2.10: Change in Export Structure by Sectors
Table 2.11: Korea's Top Ten Exports (1960 – 1980)
Table 3.1: Economic Development Plans and Growth Rate (1982~2001)

Table 3.2: Industrial and Technology Policies since 1980s

Table 3.3: Changes in national R&D program by stage.

Table 3.4: R&D Expenditure and Structure of Korea, 1985-2001

Table 3.5: Industrial Structure (At current prices)

Table 3.6: Korea’s Competitiveness in the World Market, (1985-2000).

Table 3.7: Technology Intensity of Korea’s Exports, (1982-2000).

Table 3.8: Top Ten Exports of Korea (1990 & 2000)

Table 3.9: Korea’s Position in Global competitiveness Index.

Table 3.10: Foreign Technology Payments by Field (selected sectors) and by Nations (US and Japan). (Unit: $ million and cases)

Table 4.1: Top Ten Business Groups (Chaebol) in Korea.

Table 4.2: Market-dominating Enterprises in Major Products

Table 4.3: Samsung’s Major Strategic Alliances in Semiconductor Sector

Table 4.4: Rankings of Global Semiconductor Companies

Table 4.5: Gap between Advanced Countries and Korea in DRAM Production

Table 4.6: Korea’s World Dram Market Share Trends

Table 4.7: Product profile of Hyundai Motors.

Table 4.8: Hyundai’s Main Technical Relationships.
LIST OF ACRONYMS

BTDP Base Technology Development Project
CDMA Code Division Multiple Access
DC Developing Countries
DRAM Dynamic Random access Memory
EOI Export Oriented Industrialisation
EPB Economic Planning Board
ERC Engineering Research Institute
ETRI Electronics Technology Research Institute
FDI Foreign Direct Investment
FIC Fine Instrument Centre
FL Foreign Licensing
GRI Government Research Institute
GTC General Trading Company
HCI Heavy and Chemical Industries
HRD Human Resource Development
IGTDP Industrial Generic Technology Development Project
ISDN Integrated Services Digital Network
ISI Import Substitution Industrialisation
IT Information Technology
KAIS Korea Advanced Institute of Science
KAIST Korea Advanced Institute of Science & Technology
KIST Korea Institute of Science & Technology
KOSEF Korea science and Engineering Foundation
KOTRA Korea Trade Promotion Agency
KTDC Korea Trade Development Corporation
LE Large Enterprise
MITI Ministry of Trade and Industry
MOST Ministry of Science & Technology
MOTIE Ministry of Trade, Industry and Energy.
NIS National Innovation System
NRP National R&D Project
OECD Organisation for Economic Cooperation and Development
OEM Original Equipment Manufacturing
POSCO Pohang Steel Company
PRI Private Research Institute
RRC Regional Research Institute
S&T Science & Technology
SME Small and Medium Enterprises
SRC Science Research Institute
TFP Total Factor Productivity
TTC Technology Transfer Centre
UNCTAD United Nations Conference on Trade and Development.
URI University Research Institute
