LIST OF TABLES

Table 1 Sample Description across Gender, Stream of Study and Type of College .. 74
Table 2 Sample Description for the Qualitative Phase ........................................ 81
Table 3 Reliability Coefficients for Sub-Scales of the Career Maturity Inventory .... 86
Table 4 Reliability Coefficients for Parental Authority Questionnaire ............... 86
Table 5 Reliability Coefficient for Metacognitive Awareness Inventory ............ 86
Table 6 Reliability Coefficients for Neo Five Factor Inventory ...................... 86
Table 7 Sample description for Socio-Economic Status, SSLC percentage, Decision status and Exposure to Career Counseling............................................... 88
Table 8 Distribution of scores on Career Maturity Attitude Scale, Career Maturity Competence Scales, Metacognition and Personality traits in the Sample 89
Table 9 Correlation between Career Maturity Attitude and Competency Scales with Personality traits ........................................................................................................ 90
Table 10 Correlation between Career Maturity Attitude and Competency Scales with Metacognition ........................................................................................................ 91
Table 11 Correlation between Career Maturity Attitude and Competency Scales with Parenting Styles ........................................................................................................ 92
Table 12 Comparison of Career Maturity Attitude and Competency Scales across Authoritarian (A), Authoritative (Au) and Permissive (Pe) Parenting Styles ........................................................................................................ 93
Table 13 Comparison of Career Maturity Attitude and Competency scales between Male and Female Participants ................................................................. 95
Table 14 Comparison of Career Maturity Attitude and Competency Scales between Socio Economic Status (SES) Categories ........................................................................ 96
Table 15 Comparison of Career Maturity Attitude and Competency Scales between College Type .......................................................... 99
Table 16 Comparison of Career Maturity Attitude and Competency Scales between Arts, Science, and Commerce Streams .................................................. 100
Table 17 Comparison of Career Maturity Attitude and Competency Scales between Decided and Undecided groups .................................................. 101
Table 18 Results for Multiple Linear Regression analysis with variables Openness, Neuroticism, Conscientiousness, College type, Decision Status, Socio-Economic Status, Parenting Style predicting Career Maturity Attitude.103
Table 19 Results for Multiple Linear Regression analysis with variables Openness, College type, Decision Status, Stream of study, Socio-Economic Status (SES) predicting Competency one (Self- Appraisal) ......................... 105
Table 20 Results for Multiple Linear Regression analysis with variables Gender, College type, Decision Status, Parenting Style, Socio-economic Status (SES) predicting Competency two (Occupational Information) .......... 107
Table 21 Results for Multiple Linear Regression analysis with variables Gender, Decision Status, Parenting Style, Socio-Economic Status predicting Competency Three (Goal Selection) .................................................. 110
Table 22 Results for Multiple Linear Regression analysis with variables College type, Decision Status, Socio-Economic Status, Parenting style and Neuroticism predicting Competency Four (Planning) ............................................. 112
Table 23 Results for Multiple Linear Regression analysis with variables Gender, Parenting Style, Decision Status, Stream of study, Socioeconomic status predicting Competency Five (Problem Solving) ...................... 114
Table 24 Themes and Sub-themes ................................................................. 120
