PREFACE AND ACKNOWLEDGMENT

Pursuing a Ph.D. is both a painful as well as delightful experience. It is very similar to a high peak climbing process, in sequential steps one after the other escorted by bitterness, frustration, hardships, motivation, and trust. When I found myself on the top enjoying the beautiful scenery, I somewhere realized that in fact it was a support and encouragement of lot of people who helped me in different ways along the way. It would not be enough to put my sincere gratitude towards them but I would like to convey heartfelt thanks to all of them.

First of all, I am thankful to my previous supervisor Prof. Natarajan Kalyansundaram who accepted me as a Ph.D. student and blessed me to carry out the work done in this thesis. He taught me the research and encouraged me to accept the challenges I faced during my work. I thank him for always managing time for our work discussions irrespective of his highly hectic schedules. Without his honorable guidance, this work would not have seen the light of this day.

I am highly indebted towards my present Ph.D. supervisors Prof. B. K. Lande, former Dean of the Swami Rama Himalayan University, Dehradun and Prof. R. C. Jain, Head, ECE Department, JIIT, Noida, who always lead me in the right direction. I am also thankful for their valuable suggestions and guidance.

I am also thankful to Prof. Piyush Kuchhal, Associate Dean of College of Engineering studies, UPES, Dehradun (Uttarakhand), Prof. Rajgaurav Mishra and Prof. Ranjan Mishra in Department of Electronics Engineering, UPES, Dehradun (Uttarakhand).

It is my great pleasure to acknowledge my gratitude to our Hon. Vice-Chancellor Prof. S. C. Saxena, Prof. Krishna Gopal, Dean (A & R) for their constant support and infrastructural facilities provided for my research work at JIIT.

I would also like to thank Prof. Bani Singh, Prof. D. K. Rai, Dr. Shweta Shrivastav and Dr. Jasmine Saini, members of DPMAC for their evaluation and valuable suggestions.
during my presentations.

I am highly grateful and indebted towards my parents and colleagues for their love and support which the provided without any regrets or complaints to complete my Ph. D.

Tarun Kumar
Department of Electronics and Communication Engineering, Jaypee Institute of Information Technology, Noida, Uttar Pradesh, India.
