Acknowledgements

I take this opportunity to thank all the people who have helped me during the course of my research at IIT. Firstly, I would like to thank those who have contributed directly to the completion of this work.

Dr. Lalit, my supervisor, who is a rare blend of scientific excellence and a gem of a person, for his help and guidance and most of all, for his confidence in me, expressed always with the casual ease that is so typical of him.

Prof. Salwar, for illustrating "where there is a will, there always is a way" if only you have the enthusiasm and the stamina for it.

My lab colleagues Alok, Davika and Sulekha for their tolerance to my eccentricities and for help in editing. A special word for Alok for his company that made working in the lab much more enjoyable.

Rambodh, Ved Prakash, Ranabir and Anwar Nauth for technical assistance.

Dr. Sher Ali, Dr. Nasair, Dr. Panda and Dr. Vijay Choudhary for their suggestions. Dr. Om Singh, Dr. Rama Mukherjee, Dr. Souvani Ghosh and Dr. Vinodak Salunke for the access to their lab facilities.
Dr. Sandeep Basu, Deputy Registrar, Computer Centre, Administration, Library and Documentation Center, S-bearing and Babulal for their help at various stages. 

Sharanraj for the efficient quality work. Gopal for the photographs along with the stories of old time NIT.

There are many people who have helped me both directly and indirectly. There are many places at NIT which will always be special for me. I wish to acknowledge:

Reena, for the companionship that never let loneliness grow on me, for the help in editing and for teaching me that it is the 'small-small' things in life that matter the most. I will cherish the memories of our time together, all my life.

My friends Jayant, Pravinda, Reddi, Yasmin, Anjali, the 1989 batch, Debah for making RSH seem almost like home.

Rahul & Ayub, for restoration of my faith in humanity.

The NIT music group, for the noisy music sessions that were real good fun.

RSH, the most glamorous hostel I have ever come across. The picturesque NIT campus that makes me feel proud to be a resident here.

The protein chemistry group and the molecular genetics group for the warm
welcome that I received everytime I went there.

My in-laws, for their understanding.

My parents, for making me what I am today.

And lastly, Mayur, for his love & support that could transcend the distance that separated us throughout the tenure of this work.
