ACKNOWLEDGEMENT

It is my great privilege and pride in getting the active support and guidance right from the selection of the topic and to arrive at findings on the very important and relevant Research topic namely "A Critical Study Of Three Dimensional Theory Of Sustainable Development Of Cities With Reference To Pune And Pimpri Chinchwad Municipal Area" from Dr. M. C. Dixit, my Research Guide and I am primarily grateful to him.

Since the research subject has wide implication and applications the field / survey work could be accomplished only due to the co-operation extended by the Hon’ble Municipal Commissioners of Pune and Pimpri Chinchwad Municipal Corporations besides Hon’ble Mayors of the Cities and various concerned officers.

While conducting the survey various Corporators of both the Corporations, eminent leaders like Dr. Vasant Gowarikar, Mr. Mohan Dharia, Mr. Pratap Pawar, Adv. Vandana Chavan have given valuable guidance.

My sincere thanks to stakeholders from Industry namely, Mr. Arun Firodia, Chairman, Kinetic Engg. Ltd., Mr. Sudhir Tiloo, Mg. Director, DGP Hinoday, Mr. Atul Kirloskar, Chairman & Mg. Director, Kirloskar Oil Engines Ltd., Mr. P. P. Chhabria, Chairman, Finolex Cables Ltd. and all Board of Directors of MCCIA. I must place on record the valuable inputs and suggestions given from all sectors of the society viz., Bureaucrats, Economists, Politicians, Bankers, Educational Institutions, Industrialists, NGOs and Social Workers.
The study has been basically intended to address the huge environmental, social and economic problems that the mother earth is faced with. The environment and development are the two sides of the same coin. However their integration for the Sustainable development is very relevant. The study aims at balancing the conflicting demands of the natural environment, social equity, human well-being and economic development with scares resources by careful planning to avoid any cost and time overruns. Hence the co-operation of all Stakeholders has been very important.

The Study would not have been completed without support of Dr. (Mrs.) V. S. Deodhar, Principal, Ness Wadia College of Commerce, Mrs. S. M. Panse, Mrs. Ujwala Khaire, Librarians, MCCIA, Librarian of Gokhale Institute of Politics & Economics and Librarian, Brihan Maharashtra College of Commerce, my colleagues Ms. Lolita Kewalramani and Mrs. Shubhada Shintre.

My sincere thanks to Dr. Shankar Dixit who has supported and given valuable inputs and suggestions both at the time of conceptualisation and design stage of the Study, regularly. It will also not out of place to mention a support extended by Dr. Ashok Joshi and Dr. Nachiket Vechalekar of Indian Institute of Cost & Management Studies & Research, Pune. Similarly Mrs. S. V. Parkhe who has given the secretarial support and in compilation of information. Finally I am also grateful to my family members in general and my wife Mrs. Deepa Abhyankar in particular for giving me a wonderful support and company in my endeavour of completion of my thesis.

Place : Pune
Date : 23rd June, 2005
