ACKNOWLEDGEMENTS

It gives me immense pleasure to express my deep sense of gratitude to Dr. G. V. Singh, Associate Professor, School of computer & Systems Sciences, Jawaharlal Nehru University, New Delhi for his guidance and supervision. I am grateful to Dr. R. G. Gupta, Professor, School of Computer & Systems Sciences, Jawaharlal Nehru University for his guidance and encouragement before proceeding on his foreign assignment to Iraq.

I am thankful to CMC Limited for permitting me to carry out this research work. I am also thankful to it for granting me one year sabbatical leave and for providing financial support during this period. I am especially thankful to Dr. P. P. Gupta, Chairman and Managing Director, CMC Limited, who introduced such an innovative concept of sabbatical leave in a Government of India Enterprise. It would have been difficult for me to finish this research work in this time without sabbatical leave.

My regards are due to Prof. N. P. Mukherjee, Dean, and Prof. Karmeshu, Former Dean, School of Computer & Systems Sciences, Jawaharlal Nehru University, New Delhi for providing necessary facilities and guidance to carry out this research work in the school. I am thankful to
Prof. B. S. Khurana and Dr. P. C. Saxena for their advise and kind help. I am also thankful to Mr. Fateh Singh, Administrative Officer of the School and his staff for their help during my stay at JNU, New Delhi. Thanks are due to the officers and staff of the libraries of Jawaharlal Nehru University, New Delhi; Indian Institute of Technology, New Delhi; University of Delhi, Delhi; Department of Electronics, New Delhi and D.R.D.O., New Delhi for providing me access to their libraries.

I am also thankful to all those persons who have directly or indirectly helped me in conception and execution of this project and making it fruitful.

Finally, I must thank my wife Raj and our three children Vandana, Vasundhara and Hemant for their patience and support and for leaving me alone in a room on many evenings and week-ends during the course of this research work.
