Acknowledgement

“In the name of ALLAH (Almighty GOD) the most beneficial and the most merciful”

Firstly, I would like to extend my heartiest gratitude to my research guide Dr. Prapti D. Deshmukh, Principal, MGM’s Dr. G.Y. Pathrikar, College of Computer Science and Information Technology, Aurangabad for her precious guidance, inspirations and timely suggestions which facilitated the entire process of bringing out this research on “Development of Multimodal Biometric System for Person Identification using Neural Network Approach”. It would have been really hard to complete this thesis successfully without the directions of my guide. Thank you madam for guiding me!!!

Also, I would like to express my deepest thanks to my parents Mohd. Naeem Siddiqui & Raziya Siddiqui, my husband Mohd. Rizwan Ansari, my lovable daughters Tashfin Ansari & Tahreen Ansari and my mother in law Ms. Badrunnissa Begum who has always supported and praised me throughout this thesis which was a huge contribution for the completion of this thesis, it really couldn’t have been successful without them.

A sincere gratitude is extended to Prof. Dr. R. R. Deshmukh, Professor & Head, Department of Computer Science & Information Technology, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad for their encouragement and kind support time to time. My sincere thanks goes to Respected Prof. K. V. Kale, Director BCUD, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad for giving opportunity to do research & all the support.

I specially thank Dr. Rameh R. Manza, Prof. Dr. B. W. Gawali, Dr. Pravin Yannawar, Dr. C Namrata Mahender, Dr. Mukta Dhopeshwarkar, and Dr. Mansi Baheti for contributing their valuable research ideas during the work. I specially thanks to Dr. Nisar Ali Razvi, Professor, Vivekanand Art’s Sardar Dalipsingh Commerce & Science College, Aurangabad for inspiring me.
I would like to express my gratitude to my H.O.D. of Vivekanand Art’s Sardar Dalipsingh Commerce & Science College, Aurangabad, Dr. Ashok Gaikwad, my colleagues from department of computer science and my friends Swati Vaishnav, Rasika Kulkarni, Aparna Joshi for their valuable discussion.

For healthy working environment I would like to thank all KVK Research Group, all the teaching and non-teaching staff of the Department of Computer Science and Information Technology, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad for their cooperation and constant support during my work.

The words cannot truly express the gratitude that I owe to my parents and my family members, my sister Farnaz Khan w/o. Sami Khan and Humera Shaikh w/o. Aqueel Shaikh, my loving brother Mohd. Hares Siddiqui and his wife Sumaiyyah Siddiqui for their love, affection and constant encouragements. I also like to give my love and heartfelt gratitude to my nieces and nephews; Aatif Shaikh, Saniya Khan, Nida Shaikh, Faiz Khan, Nazish Shaikh, Arham Siddiqui, Nameer Siddiqui, Manha Siddiqui, Shahnawaz Shahbuddin and Abdul Rafe Fahad for their affection.

Our sincere thanks to all of our friends Rupali L. Telgad, Savita Lothe, Vrushali Gaik, Saleha Jafri, Nazneen Akhtar who have patiently extended all sorts of help in this thesis.

Lastly, I thank Almighty GOD for his countless blessings.

Ms. Almas Mohd. Naeem Siddiqui
