

## Acknowledgement

My sincerest gratitude goes to my guide Dr. Pawan Malhotra for his confidence in me all these years and in helping me work freely. His patience and insight into the subject have always made me realize and understand the subject in a broader perspective.

I would like to express my gratitude to Prof V. S. Chauhan, Director, ICGEB, for his constant help, encouragement and repetitive reminder of my target. I shall never cease to admire his invaluable suggestions and special interest in this project.

My utmost regards to Dr. Sunil Mukherjee, Dr. Raj Bhatnagar, Dr. Kanury Rao and Dr. Shahid Jameel for their intellectual support and their excellent lectures during the course work.

My thanks are due to Dr. Chetan Chitnis for his critical suggestions, which helped me in improving the quality of the work and for seeding interest in me regarding malaria by his excellent teaching capabilities during the course work.

I am highly indebted to Dr. Asif Mohammed, who treated me more like his brother rather than a junior and helped me in every aspect of my thesis. Without his help completion of my thesis would not have been possible.

The help rendered by Dr. Shahid Jameel and Charu Tanwar in providing the confocal facility is duly acknowledged.

I am thankful to Anup for his patience and relentless support. His contributions in making me understand minute technical details of parasite culture remain unmatched.

I am thankful to Dr. Amit Sharma, Dr. Renu Tuteja, Dr. Ashima Khushwa, Dr. Devesh Bhardwaj, Dr. Paushali Mukherjee and Dr. Gul Ahmad for their support.

My special thanks to Dr. Anand and Sheetal for their nice company and encouragement. Special thanks to Anuja for all those special teas and to Ajay and Basu for being there for me.

Working was made pleasurable and staying in hostel a big fun in the company of my friends- Wricha, Punjab, Vineetha, Sidharth, Kannan, Suman and Chamari.

Seniors like Amit, Bhavna, Himani, Shweta, B. N. Singh and Neema made learning so much easier. Their unconditional support and help have made working a pleasure.

I would like to extend my thanks to fellow lab mates especially Manzar, Tatiana, Suchi, Neha, Reshma, Reetesh, Suraksha, Gowthaman and to all the members of malaria group for helping me at various stages of my work and for bearing my nonsense with lots of patience. I would like to thank all my juniors for their company and help.

I owe a lot to my friends-Ajoy, Prasad and others in AIIMS for listening to me and being just what they are best at i.e friends for me.

I am thankful to Sangram and Narender for the help rendered by them.

I would also like to thank CSIR for providing financial support for pursuing my thesis.

Finally, but not the least, I would like to thank all the members of my family for supporting me all these years. My parents and my brothers are the ones who have made this thesis a reality by having faith in me and for instilling in me the courage to strive and achieve higher goals in life.
