ACKNOWLEDGEMENTS

My deepest gratitude goes to my supervisors, Dr. VENKATA RAVIBABU MANDLA, Professor, School of Civil and Chemical Engineering, VIT University, Vellore and Dr. TEJPAL SINGH, Scientist, CSIR-Fourth Paradigm Institute (erstwhile CSIR-CMMACS), Bengaluru. Thank you for their advice, constant guidance, encouragement and patience that they have shown to me.

I am extremely grateful to the VIT Management, the Chancellor, Dr. G. Vishwanathan, Vice-Chancellor Dr. Anand A. Samuel, Pro-Vice Chancellor’s Dr. V. Raju, Dr. S. Narayanan and their support. My sincere thanks to the Director, Centre for Disaster Mitigation and Management (CDMM), Doctoral Committee members Dr. Usha Natesan, Professor & Advisor (Approval) AICTE, Dr. S. Raghu, Sr. Scientist, APSAC, Hyderabad and Dr. Brijesh Nair, Professor, SCALE, Vellore Institute of Technology (VIT) University for providing the necessary facilities for successful completion of work.

Sincere thanks are due to the Adl. Director General, Remote Sensing and Aerial Surveys, Geological Survey of India, Bengaluru for necessary permissions to carry out this work. Also sincere gratitude to Dr. K.V. Krishnamurthy, Deputy Director General (Retd.) and Late Sandeep Bardhan (Suptdg. Geologist), Geological Survey of India, Bengaluru for their help in carrying out field work in the study area successfully. Also, thanks to the USGS data division for providing Hyperion and ETM+ data sets.

My heartfelt thanks to my doctoral committee members, Dr. Usha Natesan, Professor & Advisor, AICTE, New Delhi and Dr. V. Raghu, Sr. Scientist, AP Space Application Centre (APSAC), Hyderabad, for their suggestion and thoughtful recommendations.

My special thanks will go to my family members for their encouragement, understanding and constant support.

My thanks are due also to Mrs. Sainu Franco, Research Scholar for her unconditional support and companionship. Finally the author acknowledges to all those colleagues who helped directly or indirectly to complete this work.
