ACKNOWLEDGEMENTS

The present research work is my effort to give some contribution in the field of zoology, which would not be possible without the guidance of my respected guide, Dr. Bhupat B. Radadia, Assistant Professor, Shri M and N Virani Science College, Rajkot. His humble support at every stage of my work had made this work feasible.

I wish to express my special thanks to Dr. Vinod C. Soni, retire Professor of Zoology, Bioscience Department, Saurashtra University, Rajkot whose continuous supervision and motivation made this work possible more productive. Even though of his busy schedule, he has always give his time whenever I required for his supervision. It's a privilege to get the guidance from him and his valuable suggestions and corrections had made my work more polished which had led to some fruitful conclusion.

I would also like to give my sincere gratitude to Dr. K. D. Ladva, Principal (incharge), Shri M and N Virani Science College, Rajkot. The thesis would not have come to a successful completion, without the help I received from him for institutional support.

Completion of this doctoral dissertation was possible with the support of several other people. First of all I thank my fellow lab mates, Raju, Aarti, Khusboo, Ravibhai and Dhawal bhai for the cheerful companies and stimulating discussions for healthier improvement of my work and for all the fun that we have had in the last three years. I cannot forget to thanks my other friends of the belonging department, Hitarth, Anjishadi, Parth, Bhavik, Nisha and Tejas and will always miss the days spent during M.Sc. days aa well as Ph.D. classes and refreshing teas taken at Naval Kaka’s shop.

I express my gratitude thanks to Dr. Rajan Jadav for his priceless encouragement, worthy discussions for better improvement and practical guidance during my dissertation.
My special thanks goes to my close ones **Hasmukh, Ankita** and two "special friends" **Riddhi** and **Prerana** who are not only my best persons of life but life without them is spiceless. I am very blessed to have such great friends who has always tolerate me and understand me during my hard time and always inspire me to achieve this task successfully and same as the goals of life.

I am deeply obliged to my parents, who have always cheered and support me at every stage of my personal and academic life, and desired to see this achievement come true. Their blessings and support to facilitate the work had make this dissertation conceivable. I am greatly thankful to my father **Mr. Kasammiya Saiyad** who had not only helped me during my field work but his field experience also assisted me to understand more plainly.

Last but not the least my family members **Shihonadi, Tanudidi, Sirazbhai** and **Yusufbhai** whose appreciations and reinforcements had always boost up my strength. They had always fulfilled the spring of mantle support whenever required.

**Shabanam Saiyad K.**
