

ACKNOWLEDGEMENT

I sincerely acknowledge the guidance and encouragement I received from my guide Dr. P.P. Chikte, Professor in Mechanical Engineering College of Engineering Poona. I received inspiration from him to do this work and his friendly advice helped me to complete the same.

I acknowledge with thanks Dean and Director, IAT for permitting me to register for Ph.D and allowing me to use facilities in Institute of Armament Technology. I also thank Chairman and Staff of Mech. Enng. Faculty and Workshop for the help I received from them in making various models and during experimentation.

I specially thank Shri RR Bhagwat, SSA in vibration laboratory for his willing cooperation and assistance during experimental work and in running various computer programmes. Shri SS Khirid from vibration laboratory helped me in experimentation.

Finally I would like to thank Mrs. Santha Vaidhyathan and Mr. RV Kolhe for their neat typing, Shri VN Chavan for helping me in producing various graphs and inserting mathematical expressions and Shri LB Bahirat for xeroxing.
