

List of Figures

Fig. No.	Legend	Page No.
Fig.1	Map of the study sites in Tinsukia district, Assam, India	23
Fig.2	Seasonal variation of surface water temperature, pH and conductivity in the study sites	125
Fig.3	Seasonal variation of TDS, TSS and turbidity in the study sites.	128
Fig.4	Seasonal variation of DO, free CO ₂ , BOD and COD in the study sites	130
Fig.5	Seasonal variation of surface calcium, magnesium and hardness in the study site	133
Fig.6	Seasonal variation of sodium, potassium, chloride and alkalinity in the study sites	136
Fig.7	Seasonal variation of nitrate, phosphate and TOC in the study sites	140
Fig.8	Seasonal variation of GPP and NPP in the study sites	142
Fig.9	Algal community composition in the study sites	143
Fig.10	Group wise distribution of algae among the study sites	146
Fig.11	Algal seasonality at study site S1	148
Fig.12	Algal seasonality at study site S2	149
Fig.13	Algal seasonality at study site S3	150

Fig. No.	Legend	Page No.
Fig.14	Algal seasonality at study site S4	151
Fig.15	Algal seasonality at study site S5	152
Fig.16	Dendrogram showing hierarchical clustering of the study sites	155
Fig.17	Species diversity index and evenness index in study sites	157
Fig.18	CCA triplot showing relationships between algal occurrence, seasons and water quality variables in the study site S1	159
Fig.19	CCA triplot showing relationships between algal occurrence, seasons and water quality variables in the study site S2	160
Fig.20	CCA triplot showing relationships between algal occurrence, seasons and water quality variables in the study site S3	161
Fig.21	CCA triplot showing relationships between algal occurrence, seasons and water quality variables in the study site S4	162
Fig.22	CCA triplot showing relationships between algal occurrence, seasons and water quality variables in the study site S5	164
