CHAPTER ONE: INTRODUCTION 1-25

1.1 Introduction of Bricks 1
1.2 Brick Industry in India 3
1.3 Brick Industry in Assam 8
1.4 Increase Demand of Bricks 16
1.5 In Study Areas 18
1.6 Statement of the problem 21
1.7 Objectives of the study 23
1.8 Research Questions 24
1.9 Likely Contributions of the Study 24
1.10 Limitations of the study 24
1.11 The Structure of the thesis 25
1.12 The Reference Period 25

CHAPTER TWO: REVIEW OF LITERATURE 26-46
CHAPTER III: METHODOLOGY AND THEORETICAL FRAMEWORK

3.1 Brief Description of the locale 47
3.1.i. Selection of study area 47
3.2 Selection of sample and sample design 48
3.2.i Population or universe of the study 48
3.2.ii. Sample size and sample design 48
3.3 Data source 50
3.4 Analytical tools 50
3.5 Theoretical Framework of the study 51
3.5.1.i Overall Productivity 53
3.5.1.ii. Labour Productivity 53
3.5.2 Cost analysis of the industry 54
3.5.3 Income and Employment generation 58
3.5.4 Socio-Economic condition of workers 59
3.6 Research Questions of the study 59
3.6.1 Soil testing: (Material and methods) 60

CHAPTER IV: RESULTS AND DISCUSSION

4.1 Present status of Brick industry 62
4.1.1 Growth of brick industry 62
4.1.2 General features of the sample units 63
4.1.3 Present Production information of sample Brick Kiln units 67
4.1.4 Owners Profile 71
4.1.5 Marketing of the product 75
4.1.6 Brick Market 76
4.1.7 Pricing of Bricks 77
4.1.8 Grade wise output, accounting rate, sale value 80
4.1.9 Productivity of the units 81
4.1.10 Intensity of the Factor used 88
4.2 Cost Analysis of Brick Industry 92
4.2.1 Direct cost 93
4.2.2 Indirect costs 93
4.2. 3 Classification of cost on the basis of the behaviour or variability in relation to the volume of output

4.2.4 Total costs, Fixed and Variable cost of the units

4.2.5 Proportion of Raw materials, Wages, Fuel and other overhead expenses

4.2.6 Determination of Cost: (Cost Sheet or Unit costing method)

4.2.7 Estimated Total Cost Function of the sample units:

4.2.8 Cost-Volume-Profit analysis of the sample units

4.3 Income and Employment generation

4.3.1 Pattern of employment generation of the sample units

4.3.2 The Number of second category workers

4.3.3 The average employment, wages of the second category of workers

4.3.4 Income Generation of the sample units: (Profitability analysis)

4.4 Socio- economic condition of brick kiln workers

4.4.1 Distribution of sample workers according to their occupation

4.4.2 General characteristics of the kiln workers

4.4.3 Workers distribution by origin

4.4.4 Methods of recruitment of labour

4.4.5 Indebtedness among workers

4.4.6 Assets posses by the workers

4.4.7 Family Size of the workers

4.4.8 Living conditions of the brick kiln workers

4.4.9 Basic facilities availed by the workers at work place

4.4.10 Workers leave and holidays

4.4.11 Occupational and living condition health hazards
CHAPTER V: IMPACT OF BRICK INDUSTRY 136-158

5.1 Assessment of the impact of brick kiln industries on the villages 138
5.2 Villagers Perception about the kiln 142
5.3 Problems created by kiln activity 144
5.4 Economic benefit from the Brick kiln industry 146
5.5 Role of the Brick industries on the development of the Village 149
5.6 Anti –Social activities in the villages due to BKI 149
5.7 Effects of the kiln activities on the Health of villagers 150
5.8 Effects of kiln on soil (nearby agricultural land) 151

CHAPTER VI: SUMMARY AND CONCLUSION 159-174

6.1 Major findings of the study 159
6.2 Major constraints of the industry 168
6.3 Suggestions 171
6.4 Conclusion 174
