ACKNOWLEDGEMENTS

I would like to express my deepest appreciation to my research supervisor, Dr. A. Nagendran, for his supervision throughout the process of this research. His guidance and encouragement have fostered independent thinking and individual initiative, yet he has always been available for consultation. I am very grateful to him for his personal interest, attention and care shown to me in shaping my carrier. It has been an honor to be his second Ph.D. scholar.

It is my profound privilege to express my feelings of gratitude and thanks to my doctoral committee members, Dr. V. K. Senthurpondian, Assistant Professor, Department of Chemistry, Anna University, BIT Campus, Trichy and Dr. A. John Rethinam for their valuable suggestions and thoughtful discussions for completing this dissertation. My special thanks to Dr. K. Kudalingam, Principal, Alagappa Govt. Arts College for providing all infrastructure facilities to me to carry out this research. I am very much thankful to Dr. R. Jeyagopal, Former Principal, Alagappa Government Arts College, Dr. E. Kumaraswamy, Principal, VSS Government Arts College, Pulankurichi and Dr. N. Thinakaran for their constant support throughout my study.

My sincere recognition to Senior Research Scientist, Dr. D. Rana and Professor, Dr. T. Matsuura, Department of Chemical and Biological Engineering, Industrial Membrane Research Institute, University of Ottawa, Canada and Dr. A. Vanangamudi, Associate Professor, Department of Chemistry, ANJAC, Sivakasi for their fruitful discussion and cooperation in my research work.

Many thanks go to all faculty members of PG and Research Department of Chemistry for their constant assistance and cooperativeness over these past years.
They helped me in many ways that I cannot state here all the assistances I have got from them.

I specially want to thank my most cooperative and helpful colleagues Mr. S. Neelakandan, S. E. Subramani and my most lovable friends Dr. G. Pitchaimari, Manager (R&D), Rajsha Chemiclas Pvt Ltd., Dr. G. Prabakaran, Assistant Professor, Department of Tamil, St. Joseph’s College, Trichy, Mr. M. Gokul Satheeskumar (HSS Teacher) and Dr. M. Sivakumar for their excellent cooperation and extended support in the whole duration of research work.

I would also like to thank my family for their unconditional love and affection that I have been receiving. I cannot possibly state how much they mean to me.

All of my friends, who have been though together both good and bad times. Every single one of you helped me to accomplish this, and I'm truly glad to have you all in my life.

This work was made possible through the financial support from the DST-SERB Fast Track Project, India under SR/FT/CS-22-2011.

I would like to thank those who gave me support at any moment and whose names are not mentioned here by any means, but contributed a lot in my goals.

Finally to God, the All-Merciful, the Supreme Researcher

I suppose this PhD thesis is the end product of all the years of probing, questioning and encouraging me to think problems through to a conclusion. Unfortunately, after this long period as a student I fear it is now time to enter the real world. I will try to give some good things to the academic and scientific society.

(P. KANAGARAJ)
