ACKNOWLEDGEMENTS

It is with the most profound feelings of respect and reverence that I record my indebtedness and deep felt devotion to my supervising teacher, Prof. C.P. Joshua, Ph.D. (B.H.U.), Ph.D. (Adelaide), Head of the Department of Chemistry, for his never-failing kindness and ever-eager helpful nature in my study all these years. My worshipful regards to him personally and to the discipline of study in which he is always engrossed.

A word of unfading tribute of respect and devotion is hereby expressed to Prof. Anantaraman, Ph.D. (London), former Head of the Department of Chemistry, whose advice and guidance were always a source of unique inspiration.

Equally it may not be out of place, here, if I express my deep felt regards to Shri R. Ramachandran Nair, Special Secretary, Department of Culture, Government of Kerala and to Shri K. Maheswaran Nair, Director, Department of Archaeology, Government of Kerala, for their sincere encouragement.

Feelings are above words for Shri S. Padmanabhan Thampi, Superintending Archaeologist, Government of Kerala, for his constant encouraging companionship. Sincere thanks to Thampi.

This humble endeavour of my research study ought not have become a reality but for the philanthropic attitude of the officials of the Government of Kerala, my colleagues both in the Department of Chemistry, University of Kerala as well the Department of Archaeology.

M. VEILYUDHAN NAIR
