

### List of SEM illustrations

- SEM 1. *Ghatgharius roewerii* sp. nov. Tip of distitarsus of leg IV, showing pseudonychium (arrow marked) and sensory hairs.
- SEM 2. ♂ genitalia dorsal view (Head region); Leaf setae marked by arrow.
- SEM 3. Enlarged view of leaf setae (marked by arrow)
- SEM 4: Penis: Head region (Ventro-lateral view) Arrow showing leaf setae
- SEM 5: Penis *Assaphala indicus* (Dorsal view); Arrows showing setae
- SEM 6: Penis *Assaphala indicus* (Dorsal view): Glans enlarged
- SEM 7: Penis *Puria dorsalis*: (Lateral View): Glans extruded out
- SEM 8: Ovipositor *Puria dorsalis*
- SEM 9: Penis: *Puria bastawadii* (Lateral view)
- SEM 10: Ovipositor: *Puria bastawadii*
- SEM 11: Penis (*Metassamiia soerenseii*): Showing glans
- SEM 12: Penis: *Aboriscus aborensis* : Head region (Dorsal view)
- SEM 13: Ovipositor: *Aboriscus aborensis*
- SEM14: Penis *Neobunus arunanchalicus*: Head Region (Dorsal View)
- SEM15: Penis *Neobunus arunanchalicus*: Head Region (Lateral View): Glans extruded out showing the prick funnel
- SEM 16: Ovipositor *Neobunus arunanchalicus*
- SEM 17: Penis of *Scabrobunus utkalensis*: Head region (Lateral view)
- SEM 18: Penis of *Roeweria martensii*: Head region (Dorsal view)
- SEM 19: Penis (*Neoscabrobunus dharurensis*) (Dorsal view): Head region: Showing the glans
- SEM 20: Penis (*P. blatterii* ): Head region (Dorsal view); Arrow showing leaf setae
- SEM 21: Penis *Mormuga uncifrons*: Head region (Dorsal view)
- SEM 22: Ovipositor *Mormuga uncifrons*
- SEM 23: Penis *Biantes ganjamensis* (lateral view); Arrow showing swollen structure with setae
- SEM 24: Penis *Hinzuanus indicus*: Head region (Dorsal view)
- SEM 25: Penis *Hinzuanus khandagiri* ; Head region (Lateral view)
