

Acknowledgement

It is with deep sense of gratitude that I acknowledge the valuable guidance and encouragement given by Professor A.J. Mukhedkar, Department of Chemistry, University of Poona, during the course of this work; whose absence is deeply felt due to his untimely passing away on October 10, 1985.

My heart felt thanks are due to Dr. (Mrs) V. A. Mukhedkar, whose help in need and in apt time was the sole source of this thesis.

My earnest thanks are due to Professor N.S. Narasimhan, Head of the Department of Chemistry, without whose help, it would have been difficult to reach to the stage of completion of the work.

I sincerely thank Dr. S.B. Kulkarni, Reader in Inorganic Chemistry, Department of Chemistry, University of Poona, for his timely help, suggestions and for his pains taking work of going through this thesis.

I thank Dr. A.K. Nikumbh, Lecturer in Inorganic Chemistry, Department of Chemistry, University of Poona, for his help at every stage of this work and my thanks are due

(ii)

to my colleagues, Dr. R.L. Rajgolkar, Mrs. R.V.Kashalkar, Mr. Chilukuri Joginadham, A. Venkataraman and M.M.Rehman, research fellows, Department of Chemistry, for their cooperation.

My thanks are due to Dr. Dilip Dhavale, Lecturer in Organic Chemistry, University of Poona, for getting ¹H n.m.r. spectra and elemental analysis. I wish to thank Mr. K.S. Bapat for expert typing and Mr. N.K. Divate for drawings and other technical staff for their assistance.

I take this opportunity to thank University Grants Commission, New Delhi, for the award of the Teacher Fellowship under the special assistance, without which the present work would not have been completed.

I thank Principal B.M. Patil and the Members of the Executive Council of S.S.V.P. Sanstha's Science College, Dhule; for sanctioning necessary leave of absence to undertake present research project.

Finally, I would like to express my deep appreciation for my wife Vidya for her understanding, inspiration and patience throughout the period of work.

University Department of Chemistry,
Ganeshkhind, Pune 411 007, India.

(G. D. Narkhede)

March 17, 1986.
